ANNEXURE TO NOTICE

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Pursuant to Section 102 of the Companies Act, 2013 ("the Act"), the following Explanatory Statement sets out all material facts relating to the business mentioned under Item Nos. 4, 5 & 6 of the accompanying Notice dated July 27, 2018:

Item No.4

The company is required to have its cost records audited by a Cost Accountant in practice. Accordingly the Board, at its meeting held on May 25, 2018 on recommendation of the Audit Committee, approved the appointment of and remuneration payable to M/s. Sagar & Associates, Cost Auditors, Hyderabad to conduct the audit of the cost records of the Company, for the Financial Year ending March 31, 2019, for the products "Fertilizers (Plant 1 and 2 at Kakinada) and other Machinery and Plastic and Polymers (Micro Irrigation Products).

In terms of the provisions of Section 148(3) of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditor is to be ratified by the Members of the Company. Accordingly, the Members are requested to ratify the remuneration payable to the Cost Auditor for the Financial Year ending March 31, 2019 as set out in the resolution, for the services rendered / to be rendered by the Cost Auditor.

None of the Directors and / or Key Managerial Personnel of the Company and / or their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution set out in Item No. 4.

The Board recommends passing of the resolution set out in Item No. 4 as an Ordinary Resolution.

Item No.5

In accordance with the provisions of Companies Act, 2013 the appointment of an Independent Director requires approval of Members. Capt. Hariharan Ramanathan (DIN 03150763) was appointed as an Additional Director of the Company by the Board of Directors on January 20, 2018 pursuant to the provisions of Section 161 of the Act, based on the recommendation of the Nomination and Remuneration Committee.

In terms of Section 161 of the Act, Capt. Hariharan Ramanathan (DIN 03150763) holds office only up to the date of the ensuing Annual General Meeting of the Company. The Company has received a notice in writing under the provisions of Section 160 of the Act, from a member proposing the candidature of Capt. Hariharan Ramanathan (DIN 03150763) for the office of Independent Director, to be appointed as such under the provisions of Section 149 of the Act.

The Company has received from Capt. Hariharan Ramanathan (DIN 03150763) (i) consent in writing to act as Director in Form DIR-2 pursuant to Rule 8 of the Companies (Appointment And Qualification of Directors) Rules 2014, (ii) intimation in Form DIR-8 in terms of Companies (Appointment And Qualification of Directors) Rules, 2014, to the effect that he is not disqualified under sub-section (2) of Section 164 of the Act and (iii) a declaration to the effect that he meets the criteria of independence as provided in sub-section (6) of Section 149 of the Act and under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations").

Capt. Hariharan Ramanathan is a Graduate from Delhi University and an ex-service man. He was involved in garments manufacture and exports and now serves as a consultant and conducts Skill Development training programs at various Institutes.

In the opinion of the Board of Directors, Capt. Hariharan Ramanathan (DIN 03150763), the Independent Director proposed to be appointed, fulfils the conditions specified in the Act, the Rules made thereunder and the Listing Regulations and he is independent of the Management. He does not hold any shares in the Company in his individual capacity or on a beneficial basis for any other person. In the opinion of the Board Capt. Hariharan Ramanathan (DIN 03150763) is independent of the management and possesses appropriate skills, experience and knowledge. A copy of the draft letter of appointment of Capt. Hariharan Ramanathan (DIN 03150763) as an Independent Director setting out the terms and conditions would be available for inspection without any fee by the Members at the Registered Office of the Company during normal business hours on any working day up to the date of the Annual General Meeting. Pursuant to the provisions of Companies Act, 2013 and Listing Regulations, the resolution seeks the approval of the shareholders for the appointment of Capt. Hariharan Ramanathan (DIN 03150763) as an Independent Director of the Company, up to the conclusion of Seventeenth Annual General Meeting, not liable to retire by rotation.

The Board considers that in view of his rich experience, his association would be of immense benefit to the Company and it is desirable to avail the services of Capt. Hariharan Ramanathan (DIN 03150763) as an Independent Director.

Capt. Hariharan Ramanathan (DIN 03150763) and his relatives are interested in the Resolution. None of the other Directors and Key Managerial Personnel of the Company, or their relatives, is interested in this Resolution, financially or otherwise. He is not related to any of the Directors or Key Managerial Personnel of the Company.

Details as required pursuant to Companies Act, 2013, the Rules made thereunder, the Regulation 36(3) of the Listing Regulations and Secretarial Standard on General Meetings, is set out as Annexure to this notice.

The Board recommends the Ordinary Resolution set out at Item No. 5 for approval by shareholders.

Item No.6

The Company has been undertaking various Corporate Social Responsibility (CSR) activities since the year 2008 under the aegis of Nagarjuna Foundation, a not-for-profit company under Section 25 of the Companies Act, 1956 (now Section 8 of the Companies Act, 2013).

In terms of Section 135 of the Companies Act, 2013, the Company is required to spend at least 2% of the average net profits of the company made during the three immediately preceding financial years on CSR activities.

In view of losses incurred in the preceding three years, the Company need not contribute towards Corporate Social Responsibility in accordance with Section 135 of the Companies Act, 2013 but is undertaking the same to maintain the CSR activities already commenced and the need to sustain the same.

Section 181 of the Companies Act, 2013 enables the Company to make contributions to bona fide charitable and other funds, subject to the approval of the Members in general meeting in case such contribution exceeds 5 per cent of the Company's average net profits for three immediately preceding financial years.

The Company proposes to contribute to Nagarjuna Foundation an amount not exceeding Rupees One Crore for the financial year 2018-19, for the purpose.

Accordingly, despite the losses incurred by the Company in the previous Financial Years and its continued commitment to society, the approval of the Members pursuant to Section 181 of the Companies Act, 2013 is sought.

None of the Directors or Key Managerial Personnel of the Company or their relatives, except Mr. K Rahul Raju and Mr. K S Raju are concerned or interested in the resolution.

The Board recommends the Ordinary Resolution set out at Item 6 of the Notice for approval of the Members.

C. DISCLOSURES

Company Policy Matters

Your Company's endeavor has always been to maintain transparency and accountability to its stakeholders. In this direction, various policies mentioned in the Corporate Governance Report have been implemented to enable the stakeholders to appreciate the various interventions the Company has taken.

The implementation of these policies are reviewed periodically by the Board of Directors and updated regularly.

The Company has set up a Grievance Redressal Mechanism for all its associates. The Grievance Redressal Mechanism is aimed to redress the grievances of associates expeditiously to ensure good working atmosphere and culture in the organization.

The Company has drawn-up Policy on Bio-diversity, Gift Policy, Health Safety and Environment Policy and Human Rights Policy.

Risk Management Policy

Even though, Regulation 21 of Listing Regulations is not applicable to the Company, the Board of Directors of the Company, as a Good Governance practice, constituted a Risk Management Committee of the Board which frames, implements and monitors Risk Management Plan of the Company and lays down procedures to inform the Board of the risk assessment and risk minimization procedures in the Company.

The Company has an Enterprise Risk Management (ERM) System set up as required by the Listing Regulations.

As per the Risk Management System (RMS), the risks of the Company are being regularly identified/assessed and documented by way of individual profiles and risk registers. The Company is also maintaining web based risk management application by each department/division at Plant as well as Corporate Office to manage and control the risk in structured manner.

The Risk Management Organization Structure consists of Risk Management Steering Committee (RMSC) at apex level, and at divisional level, Corporate Risk Management Commit-

tee (CRMC) and Plant Risk Management Committee (PRMC) were formed to facilitate monitoring and governance of the ERM process under the purview of Chief Risk Officer on an ongoing basis.

Periodical meetings of the CRMC and PRMC are being held wherein the critical, cautionary and acceptable risks are presented by the departments through web based RMS application. During such presentations, various cross-functional deliberations take place on the contributing factors and the control measures to mitigate the risks. The outcome of CRMC and PRMC deliberations and the analysis of risks are presented to RMSC on a quarterly basis.

The Chief Risk Officer of the Company and the Compliance Officer attend all the meetings of the Risk Management Committee.

Policy on Board Evaluation

The Policy on Board Evaluation was adopted with effect from October 1, 2014 by the Board of Directors in compliance of Companies Act, 2013 and Listing Regulations.

The purpose of the policy is to assess the effectiveness of the Board as a whole, Committees of Board and Individual Directors on regular basis and to take necessary steps for improving the effectiveness of the Board.

The Nomination and Remuneration Committee has devised the methodology, identified sample tools for evaluation and also laid down the parameters for evaluation of Independent Directors, Chairman, Managing Director and Committees of the Board and the Board.

The Nomination and Remuneration Committee, based on the responses received from Directors, evaluated the Directors and conveyed the opinion of the Committee to the Board at the meeting held on July 26, 2018.

In view of the evaluation not linked to payment of remuneration, as the Company has opted only for payment of sitting fees, the evaluation has no financial implications on the Company.

Whistle Blower Policy/Vigil Mechanism

The Company formulated the policy in compliance with Regulation 22 of Listing Regulations and Section 177(9) of the Companies Act, 2013. The Policy aims to prohibit managerial personnel from taking adverse personnel action against employees disclosing in good faith, alleged wrongful conduct on matters of public concern involving violation of any law, mismanagement, and misappropriation of public funds among others.

Employees / associates aware of any alleged wrongful conduct are encouraged to make a disclosure to the Audit Committee. The Audit Committee periodically reviews the existence and functioning of the mechanism. No personnel of the Company have been denied access to the Audit Committee. The above mechanism has been appropriately communicated within the Company across all levels and has been displayed on the Company's website. Web link for the same is www.nagarjunafertilizers.com/investor.htm

Corporate Social Responsibility (CSR)

The Company has in place a CSR Policy in line with Schedule VII of the Companies Act, 2013. The CSR Policy may be accessed on the Company's website at the link: <http://www.nagarjunafertilizers.com/investor.htm>. The Company has always desired to play a proactive role in societal development with an intention to bring positive change in the lives of many.

An initiative started in 2009 with the spirit of making a difference, has today deepened its roots and is making a bigger impact and changing many more lives. The dedicated support, strength, initiative and encouragement from the associates of the Group to be part of this initiative gave impetus to the movement.

During the year under review, the Company was not required to spend any amount on CSR as it did not have any profits. The Company under the aegis of Nagarjuna Foundation started several CSR activities and continues to support the initiatives. Your Company during the year has spent Rs.69 Lakh towards CSR activities. The details of such activities carried out with the support of Nagarjuna Foundation signed by Managing Director and Chairman of CSR Committee appears as **Annexure- III** to this Report.

Your Company made contribution in areas of education, sports, healthcare and community welfare under the aegis of Nagarjuna Foundation and during the year proposes to collaborate with various leading organizations, charitable and other funds or trusts.

Corporate Governance

Your Company driven by a desire to be more competitive and recognized globally, had inculcated more than a decade ago rules defining ethical business, much before it was introduced as statutory compliance.

Your Company firmly believes that building a culture of compliance is more than meeting regulations and standards. Your Company has always proactively met mandated standards and practiced Corporate Governance in spirit and not just as letter of the law.

The goal of the Company in the area of Corporate Governance is to ensure fairness for every stakeholder; the company believes best practice Corporate Governance is critical to enhance and retain investor trust and to perform with integrity.

The Annual Report contains a separate section on the Company's corporate governance practices, together with a certificate from M/s. KBG Associates, Practicing Company Secretaries on compliance with conditions of Corporate Governance as stipulated under Listing Regulations.

MANAGEMENT DISCUSSION AND ANALYSIS

- (ii) Ammonia-I Combustion Air Pre-heater (E-204) replacement
- (iii) Ammonia-I Process air compressor First inter stage cooler replacement
- (iv) Ammonia-II Front-end Boiler (EE-208) replacement
- (v) Ammonia-II Synthesis Converter Basket replacement
- (vi) Methanator catalyst replacement in Ammonia-I
- (vii) HT Shift catalyst Replacement in Ammonia-II
- (viii) Upgradation of PAC/ARC turbo-log speed/ anti-surge control system in Ammonia-I & II
- (ix) Fine Filters in HP NG Network in both Ammonia Plants
- (x) Urea-I stripper Ferrules modification
- (xi) Upgradation of GT - C, Mark V Control System to Mark VI-E System
- (xii) Upgradation of Unit-I DCS/ESD systems
- (xiii) Compressor Rotor for GT-C & Stator blades and related hardware.
- (xiv) Re-conditioning of CT cells

Energy Reduction Study:

- To meet the revised Energy Target Set by DoF (5.50 Gcal / MT Urea), necessary correspondence has been initiated with Technology Suppliers.
- Technical & Commercial discussions with vendors completed.
- Order will be placed for Energy saving schemes after Financial Closure. Major schemes are turbines up gradation (For Syn gas turbine of Ammonia plant-I & CO2 Turbines of both urea plants) and implementation of Ammonia wash in both Ammonia Plants.

b) Production facility at MI and PVC Plants

- I. Proposal for shifting of PVC Pipe manufacturing line to Halol plant to obtain logistical advantage.
- II. Proposal to setup new Injection Molding facility to manufacture Drippers (Non PC) at Nacharam and Halol Plants in phased manner.

B.2. Technology Absorption, Adaptation and Innovation:

1) Efforts, in brief, made towards technology absorption, adaptation and Innovation:

a) Production Facility at Kakinada:

Installation of JSC NIIK Vortex Mixer in Urea-II Reactor: This scheme was implemented during PTA 2014 in Urea II Reactor. NFCL is the first Fertilizer Industry in India to adopt this technology.

b) Production facility at MI and PVC Plants

- (i). Indigenization of imported spare parts carried out to reduce the dependency on imported parts and optimize the cost.
- (ii). Introduced Friction welding technology for HDPE pipe welding in addition to existing socket fusion welding and productivity increased.

2. Benefits derived as a result of the above efforts, example Product Improvement, Cost Reduction, Product Development Import Substitution etc.

a) Production Facility at Kakinada:

- (i) Installation of Vortex Mixer in Urea-II Reactor improved conversion thereby resulted in energy savings.
- (ii) With the implementation of Energy Reduction schemes, the complex Sp. Energy Consumption is targeted for improvement of at least 0.1 Gcal/MT of Urea

b) Production facility at MI and PVC Plants

- (i) Logistical cost has been reduced by developing the products at different locations.
- (ii) Consumed 100% process scrap within BIS norms in non-prime products.
- (iii) Continuously reduced the input costs by optimizing the processes.
- (iv) Improved the efficiency of production lines.
- (v) Warranty claims have been reduced by improving quality of products.

3) In case of import technology (imported during the last five years reckoned from the beginning of the financial year), following information may be furnished:

a) Production Facility at Kakinada:

Vortex Mixer installed in Urea II Reactor during PTA 2014. JSC NIIK is the supplier of Vortex Mixer. With this installation Urea conversion increased and Plant reliability improved.

b) Production facility at MI and PVC Plants: NIL

B.3. EXPENDITURE INCURRED ON RESEARCH AND DEVELOPMENT (R & D):

An expenditure of Rs.18.53 Crore was incurred towards Research and Development during the financial year 2017-18. The details are provided in the Notes forming part of the financial statements for the year ended March 31, 2018 (refer Note No. 34). The company has decided to close down the R&D Division during the year 2018-19 as a part of its strategic drive to focus on core business and cost reduction; and may re-establish the division in the future based on the then strategic direction of the company.

(C) FOREIGN EXCHANGE EARNINGS AND OUTGO

a) Activities relating to exports, initiatives taken to increase exports, development of new export markets for products and services, export plans: NIL

b1) Foreign Exchange Outgo:	Rs. in lacs
i. Technical know-how (net of Tax)	-
ii. Interest	44.82
iii. Dividend (net of taxes)	
a) Equity	-
b) Preference	-
iv. Others	230.55
2) Foreign Exchange earnings	717.37

ANNEXURE – V:

DETAILS OF PUBLIC FUNDING IN THE LAST THREE YEARS

The Company has not raised any funds from the public. There are no GDRs / ADRs / Warrants or any convertible instruments as at the end of March 31, 2018.

Commodity Price Risk/ Foreign Exchange Risk and Hedging activities:

The commodity price risk of the Company may arise mainly out of imported fertilisers due to fluctuation of prices in the international market. The Company controls such risk through dynamic sourcing strategy and supply plan including constant review of market conditions and costing of competitors. In addition to the above, the prices of natural gas are subject to fluctuation on account of change in prices of crude oil and demand-supply factors. The Company is not affected by price volatility of natural gas as the cost of natural gas is pass through under the Urea pricing policy if the consumption is within the permissible norms. The Company did not enter into any transaction for hedging the commodity price risk.

The foreign exchange risk of the Company arises mainly out of import of fertilisers. The Company continuously monitors its foreign exchange exposure and hedges its foreign exchange risk exposure to the extent considered necessary through forward contracts and option structures.

MONEYS REMAINING UNCLAIMED WITH THE COMPANY

There are no unclaimed fixed deposits, unclaimed deposits and interest on deposits.

CERTIFICATE ON CORPORATE GOVERNANCE

To
The Members of
Nagarjuna Fertilizers and Chemicals Limited

We have examined the compliance of conditions of Corporate Governance by Nagarjuna Fertilizers and Chemicals Limited for the year ended on 31st March, 2018, as stipulated in Securities and Exchange Board of India (Listing Obligations And Disclosure Requirements) Regulations, 2015 of the said Company.

The compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination has been in the manner described in the Guidance Note on Certification of Corporate Governance issued by the Institute of Company Secretaries of India and has been limited to a review of the procedures and implementation thereof adopted by the company for ensuring compliance with the conditions of Corporate Governance as stipulated in the said Clause. It is neither an audit nor an expression of opinion on the financial Statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, and based on our reliance upon the representations made by the management that there were no transactions of material nature with the management or by relatives that may have potential conflict with the interest of the company at large, as stated under Disclosures Column of the Company's Report on Corporate Governance.

Sl. No. Particulars

1. The Company has complied with the requirements under the LODR (earlier Listing Agreement entered into with BSE Limited and National Stock Exchange of India Limited) except the following compliances: The Company has complied with the requirements under the LODR (earlier Listing Agreement entered into with BSE Limited and National Stock Exchange of India Limited) except the following compliances: However, during the period under review, as on 31st March, 2018, the Board consisted of 13 directors including Independent and non-independent Directors. To be in compliance with Regulation 17 (1)(b), at least half of the board of directors shall comprise of independent directors (if the entity does not have a regular non-executive chairperson), whereas the Company has only 6 Independent Directors in the board during the period under review. Further as on the date of signing this report, we have been given to understand that due to resignation / withdrawal of Nominee Directors, the total number of Directors became 10 (from 13) and hence the

MANAGEMENT DISCUSSION AND ANALYSIS

Global Economic Scenario

The global economy grew at an average of 3.8% (2017) and is expected to accelerate to 3.9% in 2018 and 2019 (Source: IMF, Jan 2018). For the first time since the global financial crisis in the year 2007-08, all major regions of the world experienced an uptick in economic growth. However, increased protectionism, trade barriers and rising geo political tensions poses downside risk to this growth momentum.

Indian Economic Scenario

India clocked a GDP of 6.7% during financial year 2018. Financial Year 2018 began uncertainly with the economy still dealing with the impact of demonetisation. Further, during 2017-18 there was considerable disruption in economic activity on account of teething troubles that accompanied the rollout of the Goods and Services Tax. Fiscal deficit for 2017-18 stood at 3.5% of the GDP.

INDUSTRY STRUCTURE AND DEVELOPMENTS

Agriculture Sector

Agriculture is the primary source of livelihood for about 58 per cent of India's population. The agriculture sector in India is expected to generate better momentum in the next few years due to increased investments in agricultural infrastructure (such as irrigation facilities, warehousing and cold storage etc) and modernization of agricultural produce market place through schemes like eNAM. During 2017-18 crop year, food grain production is estimated at 279.51 million tonnes.

Fertilizer Sector

Chemical fertilizers have played an important role in making India self-reliant in terms of production of food grains. However, lack of access to knowledge and balanced nutrition, imbalanced use of nutrients and micronutrients has reduced the capacity of farmers to increase crop yields.

Micro Irrigation

At present, the area under Micro-Irrigation (MI) is only 7.97 million hectares and as per government estimates about 69.5 million hectares can be cultivated using MI providing a substantial opportunity for growth in the industry. To bring in more area under MI, the Hon'ble Prime Minister has spearheaded a scheme called 'per drop more crop'. The Cabinet Committee on Economic Affairs has approved an initial Corpus of Rs.5000 Crore for setting up of a dedicated "Micro Irrigation Fund" with National Bank for Agriculture and Rural Development under Pradhan Mantri Krishi Sinchayee Yojana, which will further support adoption of MI.

Government Policies

Government of India, Ministry of Chemicals and Fertilizers notified New Urea Policy- 2015 (NUP 2015) in May 2015 for existing gas-based urea manufacturing units. NUP 2015 is applicable from June 2015 to March 2019.

Under NUP 2015, the Government notified revised energy norms for the period 1st June 2015 to 31st March, 2018

and target energy norms for the year 2018-19. The revised energy norms applicable from 1st June 2015 have been further extended on 26th March 2018 for certain units for the period of 2 years till 31st March 2020 with token penalty. The target energy norm as per NUP 2015 will be continued upto 31st March 2025. Accordingly, the revised energy norms are applicable to the company for the period from 1st June, 2015 to 31st March, 2020 and the target energy norms will be applicable for the period 1st April, 2020 to 31st March, 2025.

The recent policy intervention and measures taken by the Government will result in higher efficiency of plants and focused on lowering the subsidies to be paid by the Government. The policy affects the company's bottom-line as the investments are no recognition of investments and returns provided on the investments made for achieving the revised energy norms.

The policy states the lowest of the per MT fixed costs of all the indigenous urea units for the production beyond re-assessed capacity, shall be paid to all units that reduced profit margins of manufactured urea substantially.

NUP 2015 is implemented with the pooling of gas in Urea sector. The Gas pooling policy is notified by the Ministry of Petroleum and Natural Gas (MoPNG). Gas pooling policy has increased the working capital requirements of the Company, resulting in higher interest cost.

A pilot Project on Direct Benefit Transfer (DBT) in fertilizer sector was initiated in Krishna and West Godavari Districts of Andhra Pradesh with effect from 1st October 2016, the project was extended in phases to cover another 14 districts. Government of India has rolled out State wide DBT in fertilizer in phases from September 2017 onwards with PAN India rollout from March, 2018. All States in the country are in Go Live for DBT in Fertilizers from 1st March 2018 onwards.

The procedure for release of fertilizer subsidy is further modified by the Department of Fertilizers with introduction of DBT vide letter dated 31st July, 2017. All sales transactions to the beneficiary are mandatory through Point of Sales (POS) devices and 100% subsidy on fertilizers will be released to fertilizer companies only on actual sales to farmers as recorded in the ePOS device from 1st March, 2018 on all India basis.

The DBT policy being implemented does not transfer the subsidy to the farmer (as subsidy under this model is not credited to farmer's bank account but routed to the industry) as being done in past. DBT has only increased the subsidy delay which was earlier paid on receipt of fertilizers in a district, now it is paid only after sales to the farmers (It means delay of 4 to 6 months, since sale of urea are seasonal). The resultant increase in working capital cost are not recognized nor reimbursed by the Government.

RBI has issued a circular to all the schedule commercial banks and financial institution on 12th February, 2018, redefining rules with respect to regularization of the bank's dues. As per the said Circular for Companies where the banking exposure is Rs.2000 Crs and above, even one day delay in repayment of interest/principal or part of principal repayment will designate the account as default and this will be considered in the ambit of Resolution Plan. This not only contradicts with the DBT policy of the same government but will also lead more

companies towards insolvency.

Company's Strengths and Opportunities

Urea Business:

The Company's main strength lies in an excellent track record of project executions, plant operations (achieving high production levels and adhering to high environmental standards and safety). It also has the twin advantages of having access to low cost raw material and being in the urea deficit market.

MI:

The Company's MI division has a diverse product portfolio and sells across all the major agriculture markets in India. The Company is well positioned to address the growing demand in MI products and farmers needs of high yields.

ITES:

Initiated in the year 1999 with a vision to augment "Rural Prosperity through Enhanced Knowledge and Technology", iKisan has been conceiving, designing and implementing turnkey projects in agriculture for more than 15 years and played significant role in the emerging Information Technology Enabled Services (ITES) segment of Agriculture.

iKisan has been honored as the "Strategic Partner to the GOI for Implementation of the National Agriculture Market (eNAM). Up to May 2018, 9.87 million farmers, 109,725 traders were registered on the e- NAM platform. 585 mandis in India have been linked while 415 additional mandis will be linked in 2018-19 and 2019-20. The project has been awarded "Gems of Digital India 2018" by Government of India for excellency in e-governance.

Risks and Concerns

Urea Policy:

The industry continues to face challenges such as insufficient subsidy allocation in budget, un-remunerative policies for urea policy (production, margins, gas pooling and DBT), urea prices, artificially depressing impacting crop yield, delays in subsidy payments, domestic gas availability and pricing;

The industry requires urgent and fundamental reforms in order to sustain production. The industry is plagued with increasing build-up of subsidy dues (which forms a substantial portion of the gross sales of fertilizer Companies) and delays are causing severe financial stress on the financials of the Company. Remove discrimination between New Urea units under New Investment policy 2012 and old urea units under New Urea Policy, 2015.

A major concern of the Company is the short supply of Natural Gas and at times low pressure, resulting in the plants running at low load operations resulting in higher energy consumption, though during the current year the issue has been mitigated to an extent. The pricing of raw materials including Natural Gas is not in parity with international prices resulting in the cost of production of fertilizers in India not being comparable and competitive with international prices of fertilizers resulting in unfair competition. This has resulted in a threat of cheaper

imports. The Fertilizer Industry need protection through tariff and other measures.

Debt Restructuring:

Due to the GAIL pipeline accident in 2015, the company had suffered substantially more losses compared to the other in the Urea Sector. The company approached its banks for debt restructuring under then S4A Scheme in order to arrest further losses and restore normalcy to operations. After arriving at an in principal scheme for the restructuring with the banks, before the scheme could be implemented, RBI announced a new debt resolution scheme dated the 12th of February 2018 (eliminating the earlier debt resolution schemes including the S4A scheme). The company has since appointed IDBI Capital as its Financial advisor to develop and submit a new debt resolution plan to the Lenders.

Outlook/ Future plans

The Urea Policy announced during the year 2015 is ending on 31st March 2019. The Industry expects a suitable policy will be formulated by the Government addressing genuine concerns of the industry. The company expects to restructure its debt during the year 2018-19. It expects the debt restructure and its turn around strategy would start yielding value during the ensuing year 2019-20.

Financial Performance vis-a-vis Operational Performance

Financial Summary

The loss after the tax for the year is Rs.21.52 Crore against loss after tax of Rs.121.77 Crore for the previous year.

The Company reduced losses during the current year on account of higher production of manufactured urea due to adequate supply of Natural Gas by the suppliers, resulting in higher contribution and energy incentives. Further, higher other income and reduction in under recovery of transport costs are also contributed to reduction of losses.

Plant Operations

The Company during the year manufactured 15.90 LMT of urea as against 14.98 LMT in the previous year. The Micro-Irrigation business achieved a production of 1270.93 Lakh Mtrs against 1236.43 Lakh Mtrs during the previous year.

The Company achieved a sale of manufactured urea of 15.99 LMT compared to 15.27 LMT in the previous year, with the total urea sales for both manufactured and imported being 20.82 LMT compared to 18.91 LMT of previous year.

INTERNAL CONTROL SYSTEMS

The Company has a strong internal control system comprising various levels of authorization, supervision, checks and balances and procedures through documented policy guidelines and manuals. The scope and authority of the Internal Audit function is defined in the Internal Audit Charter. With a view to maintain independence and objectivity in its working, the Internal Audit function reports directly to the Audit Committee.

The internal financial controls within the Company are commensurate with the size, scale and complexity of its operations. The controls were tested during the year and no reportable material weaknesses either in their design or operations were observed.

HUMAN RESOURCES AND INDUSTRIAL RELATIONS

The Company during the previous year continued to have good industrial relations with all its employees. Various initiatives have been taken to impart training and development activities so that employees are prepared to take up new challenges for their own development and also for the overall well-being of the Company. There are 1623 employees on the rolls of the Company as on March 31, 2018.

CAUTIONARY STATEMENT

The Board's Report and Management Discussion and Analysis Report may contain certain statements that the Company believes are, or may be considered to be "forward looking statements" within the meaning of applicable securities law and regulations. All these forward looking statements are subject to certain risks and uncertainties, including but not limited to Government action, economic developments, risks inherent to the Company's growth strategy and other factors that could cause the actual results to differ materially from those contemplated by the relevant forward looking statements and the company is not obliged to update any such forward looking statements.

INDEPENDENT AUDITOR'S REPORT

To

The Members of

Nagarjuna Fertilizers and Chemicals Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying Standalone Ind AS Financial Statements of Nagarjuna Fertilizers and Chemicals Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (herein referred to as "the Standalone Ind AS Financial Statements").

Management's responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Ind AS Financial Statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities, selection and application of appropriate accounting policies, making judgments and estimates that are reasonable and prudent and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors Responsibility

Our responsibility is to express an opinion on these Standalone Ind AS Financial Statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Standalone Ind AS Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards

require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Standalone Ind AS Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Standalone Ind AS Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone Ind AS Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Standalone Ind AS Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS Financial Statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs (financial position) of the Company as at March 31, 2018, and its loss (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Emphasis of Matter

Attention is invited to following notes to the Standalone Ind AS Financial Statements:

- a) Note 5.1 regarding the provision for diminution in the value of investments made for the value of Investment in Jaiprakash Engineering and Steel Company Limited (JESCO), a subsidiary and its adequacy based on Management assessment, for the reasons stated in the said note
- b) Note 25.1 regarding recognizing Income from urea operations including reimbursement claims for additional fixed cost, input escalation/de-escalation, and for production beyond reassessed capacity based on prices and provisions applicable under NPS III, Modified NPS III, pending notification of final prices under New Urea Policy 2015 and consequential adjustments, if any that may arise.
- c) Note 36.1.1 regarding Arbitration awards passed against the Company for USD 15,275,688, GBP 11,45,630 and INR 221.39 Lakhs; the impact of which has not been recognised in the Financial Statements, for reasons stated in the said note;

Our opinion is not modified in respect of the above matters.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 2) As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account

Re: Nagarjuna Fertilizers and Chemicals Limited **Annexure A to the Independent Auditors' report**

((Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Nagarjuna Fertilizers and Chemicals Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Nagarjuna Fertilizers and Chemicals Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the Standalone Ind AS Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls over Financial Reporting" issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the "Guidance Note on Audit of Internal Financial Controls over Financial Reporting" (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk whether a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment

of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Re: **Nagarjuna Fertilizers and Chemicals Limited** **ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT**

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) In respect of its fixed assets:
 - (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of its fixed assets.
 - (b) A major portion of the fixed assets have been physically verified during the year by the Management in accordance with a programme of verification, which, in our opinion, provides for physical verification of all the fixed assets at reasonable intervals having regard to the size of the Company and the nature of its assets. According to the information and explanations given to us, the discrepancies noticed on such verification were not material and have been properly dealt with in the books of account.
 - (c) According to the information and explanations furnished to us, and based on our review, title deeds of its immovable properties are not held in the name of the Company in respect of land to the extent of 340.11 acres in 104 cases, situated in Nellore District, Andhra Pradesh, in the possession of the Company, pending registration of the titles thereto in its name.
- (ii) According to the information and explanations furnished to us, in respect of the Company's inventories, physical verification of inventories at plants and warehouses has been conducted by the management at reasonable intervals during the year. In our opinion, having regard to the nature of its business and location of its stocks, the frequency of verification is reasonable. Further, the discrepancies noticed on such verification, between the physical stocks and the respective records were not material in relation to the size of operations of the Company and the same have been properly dealt with in the books of account.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the Register maintained under Section 189 of the Companies Act, 2013. Accordingly, reporting under clauses (a), (b) and (c) of paragraph 3(iii) of the Order does not arise.
- (iv) According to the information and explanations furnished to us, the Company has not granted any loans, nor made any investments or given any guarantees or securities during the year to any of the parties specified in Sections 185 and 186 of the Companies Act, 2013, except Moneys advances to Nagarjuna Oil Refinery Limited, pursuant to the Composite Scheme of Arrangement and Amalgamation, which the Company has been legally advised does not come under the purview of the aforesaid sections.

- (v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits. Accordingly, reporting under provisions of paragraph 3(v) of the Order does not arise.
- (vi) We have broadly reviewed the cost records maintained by the Company pursuant to the Rules in force made by the Central Government under sub-section (1) of Section 148 of the Companies Act, 2013, and are of the opinion that, prima facie, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) According to the information and explanations given to us, in respect of statutory dues:
- (a) There were a few delays in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income-tax, GST, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities, and there were no amounts payable in respect of the aforesaid undisputed statutory dues in arrears, as at March 31, 2018, for a period of more than six months from the date they became payable.
- (b) Details of dues of Income Tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Value added Tax which have not been deposited as on March 31, 2018 on account of dispute are as below:

Notes forming part of the financial statements for the year ended March 31, 2018

1 CORPORATE INFORMATION

The company is a public listed company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on The Bombay Stock Exchange and The National Stock Exchange of India, the two recognised stock exchanges in India. The registered office of the company is located at D.No 8-2-248, Nagarjuna Hills, Punjagutta, Hyderabad - 500082.

The Company is principally engaged in the business of manufacturing and marketing Fertilizers, Micro Irrigation Equipments and Agri Informatic Services.

2 SIGNIFICANT ACCOUNTING POLICIES

2.1. Basis of preparation:

The Financial Statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) on accrual basis and under the historical cost convention except for Derivative financial instruments and certain financial instruments which are measured at fair value, pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amended Rules, 2016.

The Financial Statements are presented in INR and all values are rounded to two decimals to the nearest lakhs, except when otherwise indicated

2.2. Use of estimates:

The preparation of Financial Statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively. Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have a significant effect on the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- i. Measurement of defined benefit obligations - Note 30
- ii. Recognition of deferred tax assets/liability - Note 19
- iii. Fair Value Measurement of financial Instruments - Note 39 & 40
- iv. Recognition of subsidy income - Note 25.1
- v. Provision for doubtful trade receivables

2.3. Current versus non-current classification

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is held primarily for the purpose of trading;
- iv. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- v. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- vi. in the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

2.4. Property, plant and equipment

Property, plant and equipment is stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.

All repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred. Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss.

Notes forming part of the financial statements for the year ended March 31, 2018

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Depreciation is provided on a pro-rata basis under the straight-line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013 with the following exception:

► Continuous Process Plants' are depreciated for 37 years based on the technical evaluation of useful life done by the management

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

Upon first-time adoption of Ind AS, the Company has elected to measure all its property, plant and equipment at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2015.

2.5. Intangible assets

Separately purchased intangible assets are initially measured at cost. Intangible assets acquired in a business combination are recognised at fair value at the acquisition date. Subsequently, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives. Estimated useful lives by major class of finite-life intangible assets are as follows:

Trademarks and Services: 10 years

The amortisation period and the amortisation method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

Upon first-time adoption of Ind AS, the Company has elected to measure all its intangible assets at the previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2015.

2.6. Impairment of non-financial assets

Assessment for impairment is done at each Balance Sheet date for any indication that a non-financial asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit.

If any indication of impairment exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made. Asset/cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognizing the impairment loss as an expense in the Statement of Profit and Loss. Recoverable amount is the higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date for any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased, in which case, a reversal of an impairment loss for an asset is recognised in the Statement of Profit and Loss account.

2.7. Inventories

Inventories are valued at the lower of cost and net realisable value. Materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Costs for different categories of materials are as follows:

- Raw materials and Traded Products: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Net realisable value in the case of Urea –

- the Group Concession Price notified by the Government of India in respect of finished goods lying at the factory, and
- the net sale price in respect of finished goods lying in the warehouses outside the factory.

Work-in-process, rawmaterials, stores, spares, packing material and loose tools are valued at weighted average cost, less provision for depletion in value, if any.

2.8. Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

2.9. Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets

Initial recognition

On initial recognition, financial assets are recognised at fair value. Transaction cost that are directly attributable to acquisition of financial assets that are not at fair value through profit and loss (FVTPL) are added to fair value on initial recognition.

Subsequent measurement:

Financial assets which are debt instruments are subsequently measured on the following basis, depending on their classification

- ▶ amortized cost
- ▶ fair value through profit and loss (FVTPL)
- ▶ fair value through other comprehensive income (FVOCI)

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

When financial assets are Equity Instruments:

All equity investments in the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income (OCI) subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument are recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI.

Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

De-recognition:

The Company derecognizes a financial asset when the contractual right to the cash flows from the financial asset expires or it transfers the financial asset at the transfer qualifies for de-recognition under IND AS 109.

Trade Receivables and Loans:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Impairment:

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financials assets in FVTPL category.

"For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

Financial liabilities:

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Initial recognition and measurement:

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and financial liabilities at amortised cost as appropriate.

Notes forming part of the financial statements for the year ended March 31, 2018

All financial liabilities are recognised initially at fair value and, in the case of liabilities measured at amortised cost, net of directly attributable transaction costs.

Subsequent measurement:

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at fair value through profit or loss.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

Derecognition:

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.

2.10. Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and options contracts to mitigate risk of changes in exchange rates on foreign currency exposure.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any gains or losses arising from re-measurement are dealt in Statement of profit or loss.

This category has derivative financial assets or liabilities which are not designated as hedges. Although the company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS109, Financial Instruments and hence categorized as financial assets or liability at fair value through profit or loss.

2.11. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.12. Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Notes forming part of the financial statements for the year ended March 31, 2018

For assets and liabilities that are recognised in the Financial Statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.13. Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are not recognised. They are disclosed only when an inflow of economic benefit is probable from such assets.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

2.14. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable. Amount disclosed as revenue is inclusive of excise duty and net of returns, trade allowances, rebates, value added taxes, Goods and Service Tax and amounts collected on behalf third parties.

The specific recognition criteria described below must also be met before revenue is recognised.

Sale of Goods:

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer.

In case of goods which are shipped subject to installation and inspection, revenue is normally recognized when the buyer accepts delivery, and installation and inspection are complete.

Subsidy:

Group Concession Price under Group Concession Scheme (GCS) and Equated Freight are recognized in accordance with the norms prescribed by the Government of India – Fertiliser Industry Co-ordination Committee, with adjustments for escalation / de-escalation in the prices of inputs and other adjustments as estimated by the management in accordance with known policy parameters in this regard.

Rendering of services:

Revenue from sale of services is recognised as per the terms of the contract with customers based on stage of completion when the outcome of the transactions involving rendering of services can be estimated reliably."

Interest income:

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable using effective interest method .

Dividends:

Revenue is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

2.15. Employee benefits

Gratuity:

In accordance with the Payment of Gratuity Act, 1972 the Company provides gratuity as a defined benefit plan, to eligible Employees. Liability with regard to gratuity is determined by an independent actuary at every Balance Sheet date using the projected unit credit method.

The Company recognizes the net obligation of a defined benefit plan in the Balance Sheet as asset or liability. Gains or

Notes forming part of the financial statements for the year ended March 31, 2018

losses on re-measurements are recognized in Other Comprehensive Income (OCI). Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to Statement of Profit and Loss.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss.

Superannuation fund and provident fund

Superannuation and Provident Fund are in the nature of defined contribution plans. The Company makes monthly contribution to approved superannuation fund covered by a policy with LIC of India. The Company has no further obligation beyond monthly contribution. The obligations under the said policy are accounted for on accrual.”

The Company makes monthly contribution to the Provident Fund scheme and recognizes it as an expense, in the year in which employee renders the related service. The Company’s Contribution towards Provident Fund is administered and managed by an approved trust. The Company has no obligation, other than the contribution payable to the Fund.

Compensate absences:

Liability for compensated absence is treated as a long term liability and is covered by a policy with Life Insurance Corporation (‘LIC’). The estimated liability at each Balance Sheet date is determined by an independent actuary using the projected unit credit method and is recognised in the accounts accordingly.

2.16. Taxes

Current income tax

Income tax expense is recognised in the statement of profit or loss except to the extent that it relates to items recognized directly in equity or Other Comprehensive Income (OCI), in which case the tax is also recognized in equity or Other Comprehensive Income (OCI).

The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax asset/liability is measured at the amount expected to be recovered from or paid to the taxation authorities.

Deferred tax:

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the Balance Sheet date.

Deferred tax assets are recognised to the extent it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent there is no longer probable that the related tax benefit will be realized. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.17. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

In the case of a loan or assistance provided by government or related institutions with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The Grant is initially recognised and measured at fair value and subsequently measured in accordance with the recognition and measurement principles of Ind AS 109, Financial Instruments (financial liabilities). The government grant is measured as the difference between the initial carrying value of the loan and the proceeds received and recognised as income on a systematic basis over the periods the related costs, for which it is intended to compensate, are expensed.

2.18. Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Notes forming part of the financial statements for the year ended March 31, 2018

Leases in which a substantial portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments and receipts under such leases are recognised to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, in which case the same are recognised as an expense in line with the contractual term. Accordingly, the Company's leasing arrangements, are mostly in the nature of operating lease for premises, and are cancellable / renewable by mutual consent. The rentals thereunder are recognised in the Statement of Profit and Loss.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership to the lessee.

2.19. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset in the period in which they are incurred, until such time the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. Interest earned on temporary investments out of specific borrowings made for qualifying assets is deducted from the borrowing costs eligible for capitalisation to those assets.

2.20. Research and development costs

Expenditure relating to capital items is treated as fixed assets and depreciated at applicable rates. Revenue expenditure during research period is charged to Statement of Profit and Loss in the year in which it is incurred.

2.21. Foreign currency transactions

The Company's Financial Statements are presented in Rupees, which is its functional currency.

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency denominated monetary assets and liabilities remaining unsettled at the end of the year are translated into functional currency at exchange rates prevailing at the Balance Sheet date. Exchange differences arising on translation of monetary items are recognised in Statement of Profit and Loss.

Non-monetary assets and liabilities denominated in foreign currency and measured at historical cost are translated using exchange rate prevalent on the date of transaction. Non-monetary assets and liabilities denominated in foreign currency and measured at fair value are translated using the exchange rates at the date when the fair value was determined.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or Statement of Profit and Loss are also recognised in OCI or Statement of Profit and Loss, respectively).

2.22. Earnings per share

Basic earnings per equity share, is computed by dividing the net profit for the year attributable to the Equity Shareholders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the net profit for the year, adjusted for the effects of dilutive potential equity shares, attributable to the Equity Shareholders by the weighted average number of the equity shares and dilutive potential equity shares outstanding during the year except where the results are anti-dilutive.

2.23. Investments

Investments are classified as Non Current and Current. Non Current Investments are carried at cost less provision for other than temporary diminution, if any, in value of such investments. Current investments are carried at lower of cost and fair value.

2.24. Exceptional Items

Exceptional items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items are disclosed separately as exceptional items.

5.1. In respect of Jaiprakash Engineering and Steel Company Ltd (JESCO), the project envisaged has not materialised. Karnataka Industrial Area Development Board (KIADB) had given possession of 986.52 acres of land (lease hold and free hold) for the project against deposit of ₹ 3,053.65 Lakhs in earlier years. JESCO approached KIADB for surrender of land allotted and refund of amount paid. KIADB agreed to refund the deposit with a condition that as and when KIADB receives request from potential investors, JESCO's lands will be offered and upon acceptance by the potential investors, such sale proceeds will be paid to JESCO in refund of its deposit. As at the year end, JESCO is in possession of 388.70 acres of land (Previous year 548.70 acres of land), the realisable value of which, in the opinion of JESCO's management is adequate to recover the deposit outstanding as at March 31, 2018.

JESCO also applied for approval to implement two projects i.e. Fertilizers and Chemicals Complex and Integrated Township to Karnataka Government for the balance land held. The Government of Karnataka has approved the projects vide Government Order (GO) No. CI 175 SPI 2011, Bangalore dated August 18, 2011, May 07, 2012 and GO No. CI 176 SPI 2011 dated August 18, 2011.

Government of Karnataka has passed order No. CI 175 SPI 2011 dated November 11, 2013 cancelling the Land Allotment made stating that JESCO has not implemented the approved projects and also advised KIADB to resume the balance land. JESCO has filed a writ petition in the Hon'ble High Court of Karnataka challenging the above cited GO and the Hon'ble High Court of Karnataka has prohibited the Government of Karnataka from dispossessing the land in possession of JESCO.

The High Court of Karnataka on April 23, 2018 has lifted the stay and permitted the Government of Karnataka from taking possession of 160 acres of land from the Company for handing over the same to prospective applicants.

The stay of the High Court of Karnataka in relation to dis-possession of land in the possession of the Company for 388.70 acres continues.

Pending crystallization of plans and considering the above said developments, the Financial Statements of the Company for the year have been prepared on going concern basis, notwithstanding the project initially planned been shelved.

In view of the above in the opinion of the management, the provision of ₹ 460 lakhs is adequate and no further provision is required as of March 31, 2018.

5.2. These shares were pledged in favour of Banks / Financial Institutions for the term loans availed by the Company, which are repaid in full awaiting release of pledge.

Nature and purpose of reserves

- (a) **Capital Reserve:** During the composite scheme of arrangement and amalgamation, the excess of net assets taken, over the cost of consideration paid is treated as capital reserve.
- (b) **Securities Premium Reserve:** The amount received in excess of face value of the equity shares is recognised in Securities Premium Reserve. In case of equity-settled share based payment transactions, the difference between fair value on grant date and nominal value of share is accounted as securities premium reserve.
- (c) **Debenture Redemption Reserve:** This reserve was created for redemption of non-convertible debentures.
- (d) **General Reserve:** The Company has transferred a portion of the net profit of the Company before declaring dividend to general reserve pursuant to the earlier provisions of Companies Act 1956. Mandatory transfer to general reserve is not required under the Companies Act 2013.
- (e) **Retained Earnings:** Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders.

b) Compensation in respect of 33.35 acres (Previous year 33.35 acres) of land in possession - amount not ascertained	-	-
Total	28,075.86	18,797.04

36.1.1. (a) In relation to some of the contracts for purchase of fertilisers, an international Arbitration Award has been passed against the Company in September 2016 for USD 1,43,98,188 and GBP 690,630 and interest as applicable apart from costs based on a claim filed by one of the Suppliers of Fertilizers to the Company.

The Company is of the view that the Award has been obtained based on documents tampered with and mis-representations of facts by said supplier. The Company is contesting the enforcement of the Award in the Courts in India and has also filed a Criminal Complaint before the Metropolitan Magistrate of Hyderabad against the supplier and its officials.

(b) The Company entered into two Contracts dated December 15, 2012 on Early Works, Offshore and Onshore towards certain engineering drawings to be utilised towards its plant for third ammonia and urea project on conditions that balance amounts payable only upon (a) the announcement of a fertilizer policy and (b) that the fertilizer policy being found favorable for the Project of the Company. The Company could not proceed further as the policy was not conducive for the project.

The service provider raised invoices for the balance amounts claiming that the work carried out was per contract. As the amounts were not paid the service provider invoked arbitration. The arbitral Tribunal passed an award on October 23, 2017 for USD 877,500, EUR 455,000 and INR 221.39 Lakhs and interest as applicable apart from costs in favour of the claimant. NFCL challenged the Awards by filing two petitions separately for each case under section 34 of Arbitration & Conciliation Act as the tribunal ignored vital evidence such as Govt communication dt 9th May 2013 where in the industries were asked not to proceed further without necessary approvals from Govt, amongst other grounds.

Accordingly the said claims have been disclosed as contingent liabilities as at March 31, 2018 in these financial statements.

The management assessed that cash and cash equivalents, other bank balances, trade receivables, trade payables and short term loans approximate their carrying amounts largely due to the short-term maturities of these instruments.

The foreign exchange forward contracts approximate their carrying amounts largely due to the mark to market of these instruments as provided by the banks.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

40. Fair value hierarchy

41. Financial risk management objectives and policies

Financial Risk Management Framework

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans and advances, trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company also entered into derivative transactions.

The Company is exposed primarily to Credit Risk, Liquidity Risk and Market risk (fluctuations in foreign currency exchange rates and interest rate), which may adversely impact the fair value of its financial instruments. The Company's senior management oversees the management of these risks. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company based on the policies agreed by the Company's senior management. The same are summarised below:

A. Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company result in material concentration of credit risk except trade receivables where more than 50% is due from Government of India. The same are realisable in due course.

To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as :

- (i) Actual or expected significant adverse changes in business,
- (ii) Actual or expected significant changes in the operating results of the counterparty,
- (iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- (iv) Significant increases in credit risk on other financial instruments of the same counterparty,
- (v) Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the company. The company categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than 2 years past due. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

Trade receivables:

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date on an individual basis for major clients based on ageing.

The ageing analysis of trade receivables as of the reporting date is as follows:

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved authorities. Credit limits of all authorities are reviewed by the Management on regular basis.

B. Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

C. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk for the entity comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include loans and borrowings and derivative financial instruments.

The sensitivity analyses in the following sections relate to the position as at March 31, 2017 and March 31, 2016.

The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant in place at March 31, 2017.

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets.

The following assumptions have been made in calculating the sensitivity analyses:

- The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2018 and March 31, 2017.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The company's interest rate exposure is mainly related to variable interest rates debt obligations. The company uses a mix of interest rate sensitive loan facilities from the lenders to manage the liquidity and fund requirement for its day to day operations like working capital, short term loans and suppliers / buyers credit etc.,

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings with floating rate of interest affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase/decrease in basis points	Effect on profit before tax
	INR Lacs	
31-Mar-18		
INR	+50	288.00
INR	-50	(288.00)
31-Mar-17		
INR	+50	(236.20)
US dollar	+25	(12.31)
INR	-50	236.20
US dollar	-25	12.31

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency) and borrowings in foreign currency.

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD and Euro exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives. The Company's exposure to foreign currency changes for all other currencies is not material.

42. Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings less cash and short term deposits.

₹ in Lakhs

Particulars	At Mar 31, 2018	At March 31, 2017
Interest bearing loans and borrowings (Note 16 & 21)	1,56,610.91	1,67,420.06
Less: Cash and short term deposits (Note 12 & 13)	7,198.41	11,425.90

Capital and net debt	2,56,739.76	2,65,232.13
Gearing ratio(%)	58.20%	58.81%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2018 and March 31, 2017.

INDEPENDENT AUDITORS' REPORT

To

**The Members of
Nagarjuna Fertilizers and Chemicals Limited
Report on the Consolidated Financial Statements**

We have audited the accompanying Consolidated Ind AS Financial Statements of Nagarjuna Fertilizers and Chemicals Limited ("the Holding Company") and its subsidiary (the Holding Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2018, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (herein referred to as "the Consolidated Ind AS Financial Statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these Consolidated Ind AS Financial Statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS Financial Statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these Consolidated Ind AS Financial Statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on

Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Ind AS Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated Ind AS Financial Statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Ind AS Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS Financial Statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs (financial position) of the Group as at March 31, 2018, and its profit/loss (financial performance including other comprehensive income), its consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Emphasis of Matter

Attention is invited to following notes to the consolidated financial statements:

- a) Note 25.1 regarding recognizing Income from urea operations including reimbursement claims for additional fixed cost, input escalation/de-escalation, and for production beyond reassessed capacity based on prices and provisions applicable under NPS III, Modified NPS III, pending notification of final prices under New Urea Policy 2015 and consequential adjustments, if any that may arise.
- b) Note 35.1.1 regarding Arbitration awards passed against the Company for USD 15,275,688, GBP 11,45,630 and INR 221.39 Lakhs; the impact of which has not been recognised in the Financial Statements, for reasons stated in the said note;
- c) Note 43 regarding the financial statements of one of the subsidiaries, Jaiprakash Engineering and Steel Company Limited (JESCO) being drawn up on a going concern basis, despite, the project initially envisaged being shelved and Orders of the Government of Karnataka for

dispossessing the land from JESCO, which has been stayed by Hon'ble High Court of Karnataka.

Our opinion is not modified in respect of these matters.

Other Matter

The Consolidated Ind AS Financial Statements includes the Group's share of loss of Rs. 1.72 Lakhs-for the year ended March 31, 2018, as considered in the Consolidated Annual Financial Statements, in respect of its Subsidiary, whose financial statements have not been audited by us. The financial statements of the Subsidiary have been audited by other auditors whose reports have been furnished to us by the management and our opinion, in so far as it relates to the amounts and disclosures included in respect of the said Subsidiary is based solely on the report of the other auditor.

Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Ind AS Financial Statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Ind AS Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other Comprehensive Income), the Consolidated Statement of Cash Flows and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Ind AS Financial Statements.
 - (d) In our opinion, the aforesaid Consolidated Ind AS Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2018 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies, incorporated in India is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, we give our Report in "Annexure A".
 - (g) With respect to the other matters to be included in the

Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Consolidated Ind AS Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer Note 35.1 to the Consolidated Financial Statements.
- ii. The Group did not have any material foreseeable losses relating to long-term contracts including derivative contracts.
- iii. The Group did not have any amounts which are required to be transferred to the Investor Education and Protection Fund as at March 31, 2018.

Annexure A to the Independent Auditors' report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Nagarjuna Fertilizers and Chemicals Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the Consolidated Ind AS Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of directors of the Holding Company and its subsidiary company which is incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company and its subsidiary Company considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls over Financial Reporting" issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Holding Company's and its Subsidiary Company incorporated in India, internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the

“Guidance Note on Audit of Internal Financial Controls over Financial Reporting” (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk whether a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors’ judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company’s and its subsidiary Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary Company which is incorporated in India have, in all material respects, an adequate internal financial controls system over financial reporting and, such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2 SIGNIFICANT ACCOUNTING POLICIES

2.1. Consolidated Accounts:

(a) The subsidiaries considered in the preparation of these consolidated financial statements are

	Country of Incorporation	Percentage of voting power	
		March 31, 2018	March 31, 2017
(i) Jaiprakash Engineering and Steel Company Limited	India	99.84%	99.84%

(b) The details of associates of the Company as defined in Indian Accounting Standard 28 "Investments in Associates and Joint Ventures" .

	Country of Incorporation	Percentage of voting power	
		March 31, 2018	March 31, 2017
(i) Nagarjuna Agricultural Research and Development Institute Private Limited	India	25.00%	25.00%
(ii) K V K Raju International Leadership Limited	India	42.85%	42.85%

The investments in associates are not considered for consolidation as the Company has already made provision for diminution in the entire value of investment. These investments are accounted for in accordance with Indian Accounting Standard 28 "Investments in Associates and Joint Ventures".

2.2. Principles of Consolidation:

The Consolidated Financial Statements relate to Nagarjuna Fertilizers and Chemicals Limited and its subsidiary companies (together referred to herein as "the Company" or "Group"), and have been prepared on the following basis:

- The Financial Statements of the Company and its subsidiary companies have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra group balances and un realised profits or losses on intra group transactions as per Indian Accounting Standard (Ind AS) 110 – "Consolidated Financial Statements" notified by the Companies (Accounts) Rules, 2014.
- In case of associates where the Company directly or indirectly through its subsidiaries holds more than 20% of Equity, Investments in Associates are accounted under the equity method as per Indian Accounting Standard (Ind AS) 110 – "Consolidated Financial Statements" notified by the Companies (Accounts) Rules, 2016.
- The Financial Statements of the subsidiaries and the associates used in the consolidation are drawn up to the same reporting date as that of the Company, i.e., March 31, 2018.
- The excess of the cost to the Company of its investment in the subsidiaries over the Company's share of equity is recognized in the Financial Statements as Goodwill and tested for impairment annually.
- The excess of the Company's share of equity of the subsidiaries on the acquisition date, over its cost of investment is treated as Capital Reserve.
- Non-controlling interest in the net assets of the consolidated subsidiaries is identified and presented in consolidated balance sheet separately from current liabilities and equity of the Company. Non-controlling Minority interest in the net assets of consolidated subsidiaries consists of:
 - The amount of equity attributable to non-controlling interest at the date on which investment in a subsidiary is made; and
 - The non-controlling interest's share of movements in the equity since the date the parent subsidiary relationship came into existence.
- Non-controlling interest in the net profit / (loss) for the year of consolidated subsidiaries is identified and adjusted against the profit after tax of the group.
- Intra-group balances and intra-group transactions and resulting unrealized profits / losses have been eliminated.
- In case of foreign subsidiaries being non integral foreign operations, revenue items are consolidated at monthly average of exchange rate prevailing during the year. All assets and liabilities are converted at the rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognized in "Foreign Currency Translation Reserve".
- The consolidated Financial Statements are prepared to the extent possible using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's separate Financial Statements.

2.3. Basis of preparation:

The Financial Statements of the group have been prepared in accordance with Indian Accounting Standards (Ind AS) on accrual basis and under the historical cost convention except for Derivative financial instruments and certain financial instruments which are mea-

Notes forming part of the consolidated financial statements for the year ended March 31, 2018.

asured at fair value, pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amended Rules, 2016.

The Financial Statements are presented in INR and all values are rounded to two decimals to the nearest lakhs, except when otherwise indicated.

2.4. Use of estimates:

The preparation of Financial Statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively. Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have a significant effect on the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- i. Measurement of defined benefit obligations
- ii. Recognition of deferred tax asset/Liability- Note 19
- iii. Fair Value Measurement of financial Instruments - Note 38 & 39
- iv. Recognition of subsidy income - Note 25.1
- v. Provision for doubtful trade receivables

2.5. Current versus non-current classification

Any asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the group's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is held primarily for the purpose of trading;
- iv. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- v. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- vi. in the case of a liability, the group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the group has ascertained its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

2.6. Property, plant and equipment

Property, plant and equipment is stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.

All repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred. Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress.

Depreciation is provided on a pro-rata basis under the straight-line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013 with the following exception:

- ▶ Continuous Process Plants' are depreciated for 37 years based on the technical evaluation of useful life done by the management

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

Upon first-time adoption of Ind AS, the Company has elected to measure all its property, plant and equipment at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2015.

2.7. Intangible assets

Separately purchased intangible assets are initially measured at cost. Intangible assets acquired in a business combination are recognised at fair value at the acquisition date. Subsequently, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives. Estimated useful lives by major class of finite-life intangible assets are as follows:

Trademarks and Services: 10 years

The amortisation period and the amortisation method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

Upon first-time adoption of Ind AS, the Company has elected to measure all its intangible assets at the previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2015.

2.8. Impairment of non-financial assets

Assessment for impairment is done at each Balance Sheet date for any indication that a non-financial asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit.

If any indication of impairment exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made. Asset/cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognizing the impairment loss as an expense in the Statement of Profit and Loss. Recoverable amount is the higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date for any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased, in which case, a reversal of an impairment loss for an asset is recognised in the Statement of Profit and Loss account.

2.9. Inventories

Inventories are valued at the lower of cost and net realisable value. Materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Costs for different categories of materials are as follows:

- ▶ Raw materials and Traded Products: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

- ▶ Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Net realisable value in the case of Urea –

- ▶ the Group Concession Price notified by the Government of India in respect of finished goods lying at the factory, and
- ▶ the net sale price in respect of finished goods lying in the warehouses outside the factory.”

Work-in-process, raw materials, stores, spares, packing material and loose tools are valued at weighted average cost, less provision for depletion in value, if any.

2.10. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.”

2.11. Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets

Initial recognition

On initial recognition, financial assets are recognised at fair value. Transaction cost that are directly attributable acquisition of financial assets that are not at fair value through profit and loss (FVTPL) are added to fair value on initial recognition.”

Subsequent measurement

Financial assets which are debt instruments are subsequently measured on the following basis, depending on their classification

- ▶ amortized cost
- ▶ fair value through profit and loss (FVTPL)
- ▶ fair value through other comprehensive income (FVTOCI)”

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

When financial assets are Equity Instruments:

All equity investments in the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income (OCI) subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument are recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVTOCI.

Fair value changes excluding dividends, on an equity instrument measured at FVTOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

De-recognition:

The Company derecognizes a financial asset when the contractual right to the cash flows from the financial asset expires or it transfers the financial asset at the transfer qualifies for de-recognition under IND AS 109.

Trade Receivables and Loans:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective

interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Impairment:

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financials assets in FVTPL category.

For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

Financial liabilities

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and financial liabilities at amortised cost as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of liabilities measured at amortised cost, net of directly at tributable transaction costs.

Subsequent measurement:

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at fair value through profit or loss.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

Derecognition

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.

2.12. Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and options contracts to mitigate risk of changes in exchange rates on foreign currency exposure.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any gains or losses arising from re-measurement are dealt in Statement of Profit and Loss.

This category has derivative financial assets or liabilities which are not designated as hedges. Although the company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments and hence categorized as financial assets or liability at fair value through profit or loss.

2.13. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.14. Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
 - ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
 - ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable
- For assets and liabilities that are recognised in the Financial Statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair

value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.15. Provisions, contingent liabilities and contingent assets:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are not recognised. They are disclosed only when an inflow of economic benefit is probable from such assets. Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

2.16. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable. Amount disclosed as revenue is inclusive of excise duty and net of returns, trade allowances, rebates, value added taxes, Goods and Service Tax and amounts collected on behalf third parties.

The specific recognition criteria described below must also be met before revenue is recognised.

Sale of Goods :

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer.

In case of goods which are shipped subject to installation and inspection, revenue is normally recognized when the buyer accepts delivery, and installation and inspection are complete.

Subsidy:

Group Concession Price under Group Concession Scheme (GCS) and Equated Freight are recognized in accordance with the norms prescribed by the Government of India – Fertiliser Industry Co-ordination Committee, with adjustments for escalation / de-escalation in the prices of inputs and other adjustments as estimated by the management in accordance with known policy parameters in this regard.

Rendering of services:

Revenue from sale of services is recognised as per the terms of the contract with customers based on stage of completion when the outcome of the transactions involving rendering of services can be estimated reliably.

Interest income:

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable using effective interest method .

Dividends:

Revenue is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

2.17. Employee benefits

Gratuity:

In accordance with the Payment of Gratuity Act, 1972 the Company provides gratuity as a defined benefit plan, to eligible Employees. Liability with regard to gratuity is determined by an independent actuary at every Balance Sheet date using the projected unit credit method.

The Company recognizes the net obligation of a defined benefit plan in the Balance Sheet as asset or liability. Gains or losses on re-measurements are recognized in Other Comprehensive Income (OCI). Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to Statement of Profit and Loss.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss.

Superannuation fund and provident fund :

Superannuation and Provident Fund are in the nature of defined contribution plans.

The Company makes monthly contribution to approved superannuation fund covered by a policy with LIC of India. The Company has no further obligation beyond monthly contribution. The obligations under the said policy are accounted for on accrual."

The Company makes monthly contribution to the Provident Fund scheme and recognizes it as an expense, in the year in which employee renders the related service. The Company's Contribution towards Provident Fund is administered and managed by an approved trust. The Company has no obligation, other than the contribution payable to the Fund.

Compensated absences :

Liability for compensated absence is treated as a long term liability and is covered by a policy with Life Insurance Corporation ('LIC'). The estimated liability at each Balance Sheet date is determined by an independent actuary using the projected unit credit method and is recognised in the accounts accordingly.

2.18. Taxes

Current income tax :

Income tax expense is recognised in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity or Other Comprehensive Income (OCI), in which case the tax is also recognized in equity or Other Comprehensive Income (OCI).” The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax asset/liability is measured at the amount expected to be recovered from or paid to the taxation authorities.

Deferred tax :

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the Balance Sheet date.

Deferred tax assets are recognised to the extent it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent there is no longer probable that the related tax benefit will be realized. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.19. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

In the case of a loan or assistance provided by government or related institutions with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The Grant is initially recognised and measured at fair value and subsequently measured in accordance with the recognition and measurement principles of Ind AS 109, Financial Instruments (financial liabilities). The government grant is measured as the difference between the initial carrying value of the loan and the proceeds received and recognised as income on a systematic basis over the periods the related costs, for which it is intended to compensate, are expensed.

2.20. Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Leases in which a substantial portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments and receipts under such leases are recognised to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, in which case the same are recognised as an expense in line with the contractual term. Accordingly, the Company's leasing arrangements, are mostly in the nature of operating lease for premises, and are cancellable / renewable by mutual consent. The rentals there under are recognised in the Statement of Profit and Loss.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership to the lessee.

2.21. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset in the period in which they are incurred, until such time the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. Interest earned on temporary investments out of specific borrowings made for qualifying assets is deducted from the borrowing costs eligible for capitalisation to those assets.

2.22. Research and development costs

Expenditure relating to capital items is treated as fixed assets and depreciated at applicable rates. Revenue expenditure during research period is charged to Statement of Profit and Loss in the year in which it is incurred.

2.23. Foreign currency transactions

The Company's Financial Statements are presented in Rupees, which is its functional currency, which is also the parent company's functional currency. For each entity, the group determines its functional currency and item included in the Financial Statements is measured using their functional currency.

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency by applying

to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency denominated monetary assets and liabilities remaining unsettled at the end of the year are translated into functional currency at exchange rates prevailing at the Balance Sheet date. Exchange differences arising on translation of monetary items are recognised in Statement of Profit and Loss.

Non-monetary assets and liabilities denominated in foreign currency and measured at historical cost are translated using exchange rate prevalent on the date of transaction. Non-monetary assets and liabilities denominated in foreign currency and measured at fair value are translated using the exchange rates at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or Statement of Profit and Loss are also recognised in OCI or Statement of Profit and Loss, respectively).

2.24. Earnings per share

Basic earnings per equity share, is computed by dividing the net profit for the year attributable to the Equity Shareholders of the parent by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the net profit for the year, adjusted for the effects of dilutive potential equity shares, attributable to the Equity Shareholders by the weighted average number of the equity shares and dilutive potential equity shares outstanding during the year except where the results are anti-dilutive.

2.25. Investments

Investments are classified as Non Current and Current. Non Current Investments are carried at cost less provision for other than temporary diminution, if any, in value of such investments. Current investments are carried at lower of cost and fair value.

2.26. "Exceptional Items"

Exceptional items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items are disclosed separately as exceptional items.

b) Compensation in respect of 33.35 acres (Previous year 33.35 acres) of land in possession - amount not ascertained	-	-
	28,075.86	18,797.04

35.1.1. (a) In relation to some of the contracts for purchase of fertilisers, an international Arbitration Award has been passed against the Company in September 2016 for USD 1,43,98,188 and GBP 690,630 and interest as applicable apart from costs based on a claim filed by one of the Suppliers of Fertilizers to the Company.

The Company is of the view that the Award has been obtained based on documents tampered with and mis-representations of facts by said supplier. The Company is contesting the enforcement of the Award in the Courts in India and has also filed a Criminal Complaint before the Metropolitan Magistrate of Hyderabad against the supplier and its officials.

(b) The Company entered into two Contracts dated December 15, 2012 on Early Works, Offshore and Onshore towards certain engineering drawings to be utilised towards its plant for third ammonia and urea project on conditions that balance amounts payable only upon (a) the announcement of a fertilizer policy and (b) that the fertilizer policy

being found favorable for the Project of the Company. The Company could not proceed further as the policy was not conducive for the project.

The service provider raised invoices for the balance amounts claiming that the work carried out was per contract. As the amounts were not paid the service provider invoked arbitration. The arbitral Tribunal passed an award on October 23, 2017 for USD 877,500, EUR 455,000 and INR 221.39 Lakhs and interest as applicable apart from costs in favour of the claimant. NFCL challenged the Awards by filing two petitions separately for each case under section 34 of Arbitration & Conciliation Act as the tribunal ignored vital evidence such as Govt communication dt 9th May 2013 where in the industries were asked not to proceed further without necessary approvals from Govt, amongst other grounds.

Accordingly the said claims have been disclosed as contingent liabilities as at March 31, 2018 in these financial statements.

The management assessed that cash and cash equivalents, other bank balances, trade receivables, trade payables and short term loans approximate their carrying amounts largely due to the short-term maturities of these instruments.

The foreign exchange forward contracts approximate their carrying amounts largely due to the mark to market of these instruments as provided by the banks.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

39. Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

The fair values of the foreign exchange forward contracts have been determined based on the valuation report obtained from the bank. Significant observable inputs used in the valuation report are quoted forward exchange rates.

40. Financial risk management objectives and policies

Financial Risk Management Framework

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans and advances, trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company also entered into foreign exchange forward contracts, which are classified as derivatives in accordance with Ind AS and are not material given their size.

The Company is exposed primarily to Credit Risk, Liquidity Risk and Market risk (fluctuations in foreign currency exchange rates and interest rate), which may adversely impact the fair value of its financial instruments. The Company's senior management oversees the management of these risks. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company based on the policies agreed by the Company's senior management. The same are summarised below:

A. Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company results in material concentration of credit risk except trade receivables where more than 50% is due from Government of India. The same are realisable in due course, based on historical experience and the fact that they are due under a major policy initiative of the Government.

To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as :

- (i) Actual or expected significant adverse changes in business,
- (ii) Actual or expected significant changes in the operating results of the counterparty,
- (iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- (iv) Significant increases in credit risk on other financial instruments of the same counterparty,
- (v) Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements, if any.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the company. The company categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than 3 years past due. Even though loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in Statement of Profit and Loss.

Trade receivables:

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date on an individual basis for major clients based on ageing.

The ageing analysis of trade receivables as of the reporting date is as follows:

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved authorities. Credit limits of all authorities are reviewed by the Management on regular basis.

B. Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly. As at March 31, 2018, there is no such excessive risk concentration.

C. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk for the entity comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include loans and borrowings and derivative financial instruments.

The sensitivity analyses in the following sections relate to the position as at March 31, 2018 and March 31, 2017.

The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant in place at March 31, 2018.

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets.

The following assumptions have been made in calculating the sensitivity analyses:

- The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2018 and March 31, 2017.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The company's interest rate exposure is mainly related to variable interest rates debt obligations. The company uses a mix of interest rate sensitive loan facilities from the lenders to manage the liquidity and fund requirement for its day to day operations like working capital, short term loans and suppliers / buyers credit etc.,

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings with floating rate of interest affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase/decrease in basis points	Effect on profit before tax
31-Mar-18		₹ Lakhs
INR	+50	288.00
INR	-50	(288.00)
31-Mar-17		
INR	+50	(236.20)
US dollar	+25	(12.31)
INR	-50	236.20
US dollar	-25	12.31

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency) and borrowings in foreign currency.

Borrowings	10.83	(7,434.18)	-	-
Foreign exchange forward contracts	16.38	(10,620.22)	-	-

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD and Euro exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives. The Company's exposure to foreign currency changes for all other currencies is not material.

41. Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in the light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings less cash and short term deposits.

₹ in Lakhs

Particulars	At March 31, 2018	At March 31, 2017
Interest bearing loans and borrowings (Note 16 & 21)	1,56,610.91	1,67,420.06
Less: Cash and short term deposits (Note 12 & 13)	7,199.43	11,426.11
Net debts	1,49,411.48	1,55,993.95
Equity share capital (Note 14)	5,980.65	5,980.65
Other Equity (Note 15)	1,01,344.21	1,03,256.64
Total Capital	1,07,324.86	1,09,237.29
Capital and net debt	2,56,736.34	2,65,231.24
Gearing ratio(%)	58.20%	58.81%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital between the years ended March 31, 2018 and March 31, 2017.

43. In respect of Jaiprakash Engineering and Steel Company Ltd (JESCO), the project envisaged has not materialised. Karnataka Industrial Area Development Board (KIADB) had given possession of 986.52 acres of land (lease hold and free hold) for the project against deposit of ₹ 3,053.65 Lakhs in earlier years. JESCO approached KIADB for surrender of land allotted and refund of amount paid. KIADB agreed to refund the deposit with a condition that as and when KIADB receives request from potential investors, JESCO's lands will be offered and upon acceptance by the potential investors, such sale proceeds will be paid to JESCO in refund of its deposit. As at the year end, JESCO is in possession of 548.70 acres of land, the realisable value of which, in the opinion of JESCO's management is adequate to recover the deposit outstanding as at March 31, 2018.

Notes forming part of the consolidated financial statements for the year ended March 31, 2018.

JESCO also applied for approval to implement two projects i.e. Fertilizers and Chemicals Complex and Integrated Township to Karnataka Government for the balance land held. The Government of Karnataka has approved the projects vide Government Order (GO) No. CI 175 SPI 2011, Bangalore dated August 18, 2011, May 07, 2012 and GO No. CI 176 SPI 2011 dated August 18, 2011.

Government of Karnataka has passed order No. CI 175 SPI 2011 dated November 11, 2013 cancelling the Land Allotment made stating that JESCO has not implemented the approved projects and also advised KIADB to resume the balance land. JESCO has filed a writ petition in the Hon'ble High Court of Karnataka challenging the above cited GO and the Hon'ble High Court of Karnataka has prohibited the Government of Karnataka from dispossessing the land in possession of JESCO.

The High Court of Karnataka on April 23, 2018 has lifted the stay and permitted the Government of Karnataka from taking possession of 160 acres of land from the Company for handing over the same to prospective applicants.

The stay of the High Court of Karnataka in relation to dis-possession of land in the possession of the Company for 388.70 acres continues.

Pending crystalization of plans and considering the above said developments , the Financial Statements of the Company for the year have been prepared on going concern basis, notwithstanding the project initially planned been shelved.

In view of the above, it is considered prudent to provide for diminution in the carrying amount of this investment to the extent of ₹ 460.00 Lakhs, based on the net worth of JESCO as at March 31, 2018.

44. Earnings per Share:

Particulars	Unit of Measurement	2017-18	2016-17
Net (Loss) after tax	(₹ in Lakhs)	(2,153.73)	(12,179.36)
Number of Equity shares (fully paid up)	(Numbers)	59,80,65,003	5,98,065,003
Earnings per share – Basic & Diluted (Face value of ₹ 1/- per share)	[1] / [2]	(0.36)	(2.04)

Note: The Company has no dilutive instruments as at March 31, 2018, as such dilutive earnings per share equals to Basic Earnings per share.

45. Balances in the accounts of various parties appearing in these statements are subject to confirmations and reconciliations.

46. The figures for the previous year have been restated / regrouped, wherever necessary, to make them comparable.
