THE INSTRUCTIONS FOR SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETING ARE AS UNDER:

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2: Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- (i) The voting period begins on September 27, 2025 at 9.00 A.M. and ends on September 29, 2025 at 05.00 P.M. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of September 23, 2025, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/ CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/websites of Depositories/ Depository Participants. Demat

account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- (iv) In terms of SEBI circular no. B. DISCLOSURES

Company Policy Matters

Your Company's endeavor has always been to maintain transparency and accountability to its stakeholders. In this direction, various policies mentioned in the Corporate Governance Report have been implemented to enable the stakeholders to appreciate the various interventions the Company has taken.

The implementation of these policies are reviewed periodically by the Board of Directors and updated regularly.

The Company has set up a Grievance Redressal Mechanism for all its associates. The Grievance Redressal Mechanism is aimed to redress the grievances of associates expeditiously to ensure good working atmosphere and culture in the organization.

The Company has in place Policy on Bio-diversity, Gift Policy, Health Safety and Environment Policy and Human Rights Policy.

Risk Management Policy

The Company had constituted Risk Management Committee which frames, implements and monitors Risk Management Plan of the Company and lays down procedures to inform the Board of the risk assessment and risk minimization procedures in the Company much before it was introduced as statutory compliance.

The Risk Management Committee is in compliance with the provisions of Regulation 21 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The Company has an Enterprise Risk Management System set up as required by the Listing Regulations.

As per the Enterprise Risk Management System, the risks of the Company are being regularly identified/assessed and documented by way of individual profiles and risk registers. The Company is also maintaining web-based risk management application by each department/division at Plant as well as Corporate Office to manage and control the risk in structured manner.

The Risk Management Organization Structure consists of Risk Management Steering Committee (RMSC) at apex level, and at divisional level, Corporate Risk Management Committee (CRMC) and Plant Risk Management Committee (PRMC) were formed to facilitate monitoring and governance of the ERM process on an ongoing basis.

Periodical meetings of the CRMC and PRMC are being held wherein the critical, cautionary and acceptable risks are presented by the departments through web-based RMS application. During such presentations, various cross-functional deliberations take place on the contributing factors and the control measures to mitigate the risks. The outcome of CRMC and PRMC deliberations and the analysis of risks are presented to RMSC on a quarterly basis.

Policy on Board Evaluation

The Policy on Board Evaluation was adopted with effect from October 01, 2014, by the Board of Directors in compliance of Companies Act, 2013 and Listing Regulations.

The purpose of the policy is to assess the effectiveness of the Board as a whole, Committees of Board and Individual Directors on regular basis and to take necessary steps for improving the effectiveness of the Board.

The Nomination and Remuneration Committee has devised the methodology, identified sample tools for evaluation and also laid down the parameters for evaluation of Board of Directors, its Committees, Chairman, Managing Director and Individual Directors for the year ended March 31, 2025.

The Nomination and Remuneration Committee at their meeting held on May 30, 2025, had approved the criteria for evaluation of the Board and its Committees and Individual Directors for the Financial Year 2024-25.

The Board of Directors, based on the responses received from all the Directors, evaluated the performance of the Board of Directors, its Committees, Chairman, Managing Director and the individual Directors at their Meeting held on September 08, 2025.

Further, Independent Directors at their meeting held on September 08, 2025, have reviewed the performance of Non-Independent Directors, Chairman and the Board as a whole.

P Murali & Co., Chartered Accountants (Firm Registration No. 007257S), Hyderabad, Statutory Auditors of the Company for term of five years to hold office from the conclusion of 16th Annual General Meeting till the conclusion of the 21st Annual General Meeting.

Auditor's Report

M/s. P Murali & Co., Chartered Accountants, Statutory Auditors', have submitted the Statutory Auditors Report for the year ended March 31, 2025, and have invited attention on emphasis of matters in relation to:

Emphasis of Matters:

- a) Refer Note No. 29: Consequent to the settlement of Debt vide receipt of sale proceeds from Core and Non-Core assets by ACRE, there are no other assets including property plant and equipment left with the Company for operations. "No Dues and Security release Certificate" from ACRE was received on 11th July 2024, thereby affecting the Going Concern of the Company and accordingly drawn the Financial statements for the year ended on March 31, 2025.

Without considering the energy and other claims from the Government, the current liabilities exceed the current assets by Rs. 86,095.55 Lakhs.

- b) Refer Note No. 32: There are claims against the company, which are not acknowledged as debts and are disputed in various forums, courts, appeals, including arbitration awards amounting to Rs 81,596.07 lakhs.

GAIL has recovered interest in the past and also raising claims for interest on the amounts due which is being disputed by the company. The company is not accounting for further interest from 1st July 2024 onwards

- c) Refer Note No. 32.4: Given the financial situation, NFCL has assigned its rights in favor of AMPL to represent it in all legal forums/proceedings to pursue claims from GAIL including Arbitration claim in its name as an assignee along with agency coupled with interest under the provisions of Indian Contract Act, 1872. Should GAIL satisfy the award in the future, NFCL shall use the award as it deems fit after clearing its liabilities
- d) Refer Note No. 30: De-escalation of Urea subsidy and De-escalation of Gas Costs used as Raw material and generation of Power for FY 2022-23.

During the 3rd quarter, the final Gas Pool price for the year 2022-23 has been notified by the DOF (Annual cumulative Gas Pool price has come down) in line with which GAIL has issued Credit note and NFCL has recognized reduction in Gas Costs by Rs. 17,555.01 Lakhs and correspondingly NFCL has reduced its Urea Subsidy claim by Rs. 16,879.16 Lakhs for FY 2022-23. Accordingly, the reduction in cost of raw material / power and fuel and consequent de-escalation of the subsidy revenues, respectively, belonging to FY 2022-23 have been accounted in line with the said notification and continued accounting policy. Further adjustments required, if any, will be considered on notification of final prices. As there is no production from

4th June 2024 there is no revenue from Operations to be recognised for the second quarter

- e) Refer Note No. 30: The Government from time to time extended the present energy norms which were valid till 31st March 2023. Accordingly, Subsidy income is recognized based on Target Energy Norms as per NUP-2015 policy for the Quarter ended June 2024 and there is no production from June 2024 as the Plants were sold.
- f) Refer Note No. 32.5: Claim from a related party asserting its right for Royalty for the period from 29.01.1998 to 31.12.2021. The company agreed without impairment and prejudice to the rights of AMPL to settle the claims in a manner such that the dues are secured and paid on a priority basis from the receipts if any from claims against GAIL if and when GAIL satisfies the award in relation to pipeline accident.

Policy on Corporate Social Responsibility

Our Philosophy

At Nagarjuna, we believe in philosophy of **SERVING SOCIETY THROUGH INDUSTRY.**

Our Culture:

We live every moment of life in harmony with nature to create value for ourselves, our stakeholders and the society.

Our Definition

At Nagarjuna, we define CSR as:

- Conducting affairs of our company in a socially acceptable manner
- Understanding, supporting and developing the communities and the cultures within which we work
- Protecting the environment and safety of the people connected with the company and the surroundings.
- Enhancing the value of the company through sustainable growth

Our CSR approach

At Nagarjuna, CSR is an initiative to create new value to economic, environmental and social issues and is intended to identify our Company with the society to establish rapport, increase competitiveness, and achieve sustainable growth, for better social development.

Practicing CSR does not mean compromising our business standards or values. It means taking a fresh approach to our objectives in order to reduce the social and environmental impacts of our business and to meet the needs of all our stakeholders.

Our principles

We recognize that we must integrate our business values and operations to meet the expectations of our stakeholders.

They include customers, employees, regulators, investors, suppliers, the community at large and the environment.

- We recognise that our social, economic responsibility and commitment to preserve environment forms integral part of our business. We aim to demonstrate these responsibilities through our actions and corporate policies.
- We take seriously all feedback from our stakeholders and, aim to meet their aspirations and our commitments.
- We shall be honest and transparent in communicating our strategies, targets, performance and governance to our

stakeholders at all times.

- The responsibility of translating this policy into action rests with all associates throughout the company.

Our CSR Framework

Nagarjuna's CSR Framework consists of following four important dimensions:

- Investors and other stakeholders
- Customers
- Employees
- Community

Investors and other stakeholders

We strive to maximize shareholders wealth through our consistent performance to achieve long term sustainable growth.

- We will provide information on our policies, performance and activities to all stakeholders and shareholders on a timely and accurate basis
- We shall ensure a high level of business performance and aim for best practices of corporate governance
- We shall provide honest, accurate, reliable, ethical, qualitative and complete corporate information to the shareholders to enable them make investment decisions and be proactive in clarifying any information which maybe detrimental to the interests of all stakeholders.
- All business decisions will be made in the best interests of the company and not motivated by personal interest
- We ensure that no insider will misuse the price sensitive information to their personal benefit which is detrimental to the interest of other stakeholders

Customers

We shall develop strong and ethical business relationships with our customers, suppliers and others. We aim at manufacturing products which improve our customer's productivity, profitability and are environment-friendly.

- We shall deliver high quality products which meet their needs and also promote the safe and responsible handling of the products.
- Customer complaints shall be resolved in the shortest time to their satisfaction.
- We shall treat all customers fairly and with respect
- We will work with our suppliers and other business-partners on the basis of mutual respect and trust and so far as practicable, require that they act in accordance with our values.

Employees

At Nagarjuna there is no 'Human Resource Development' but only 'Human Potential Development' and there are 'no' employees, only 'associates' who are treated equally with dignity, respect, and fairness. Associates are not 'resources', but persons with 'potential' who are free to exhibit their capability and allowed to exploit their potential.

- We are an equal opportunity employer and committed to treat all employees and qualified applicants for employment openly, fairly and equitably with clear and fair terms of employment and remuneration.
- We shall attract and retain the best people and provide the appropriate training and development opportunities to help them reach their full potential
- We shall provide, and strive to maintain, a clean, healthy and safe working environment that is free from harassment.
- We encourage associates to develop and evolve themselves as successful managers to lead the society from the front and we also encourage entrepreneurship among them by providing adequate opportunities and training.
- We shall treat the family of the associates as an integral part of the company and render all support whenever required.
- We shall protect their personal information at all times.

Communities

We strive to be a responsible corporate member of each and every community where we operate and support efforts of our employees to that end.

- We are committed to being an industry leader by conducting our activities responsibly to minimize any adverse impact of our operations on employees, the public at large and the environment.
- Through effective partnerships, we shall continue our initiatives on water and energy efficiency, education and environmental improvement within the community.
- We aim to create employment opportunities to the communities in which we operate and shall support and encourage our employees to help local community organizations and activities in our region

- We will not be part of a political party or take part in any political activity nor encourage any associate to do so. We will not support policies which are detrimental to the public at large.
- No employee shall directly or indirectly offer, promise to pay or authorize the payment of money or kind to Government officials, political parties or candidates or to an employee of a company with whom the company does business or is seeking to do business, for the purpose of influencing the acts or decisions of such persons or parties.
- Associates shall devote their full attention to the business interest of the company and should not engage in activities that are conflicting or interfere with their responsibilities towards the company or is advantageous to the company's competitors.
- Associates under no circumstances shall accept any money, gift, privilege or any other service or thing of value from the company's customers, vendors, consultants or any other transacting party.
- Associates must ensure that they do not conduct the company's business with a relative or with an entity in which a relative is associated or with an organization where they are directly or indirectly interested or where they shall derive a benefit from the transaction.
- Opportunities that are discovered through company's position and sources shall not be exploited or made use of, by the associates for their personal gain or advantage, unless such opportunity is fully disclosed to the Board of Directors of the company.
- We shall take our environmental responsibilities seriously and be aware of the impacts of our operations on the local communities.

Compliance

Compliance with this policy will be continuously monitored and subject to review by the Company. Associates who notice a breach of this policy must report it to the Chairman immediately.

DETAILS OF PUBLIC FUNDING IN THE LAST THREE YEARS

The Company has not raised any funds from the public. There are no GDRs / ADRs / Warrants or any convertible instruments as at the end of March 31, 2025.

Commodity Price Risk/ Foreign Exchange Risk and hedging activities:

The commodity price risk of the Company may arise mainly out of imported fertilizers due to fluctuation of prices in the international market. The Company controls such risk through dynamic sourcing strategy and supply plan including constant review of market conditions and costing of competitors. In addition to the above, the prices of natural gas are subject to fluctuation on account of change in prices of crude oil and demand-supply factors. The Company is not affected by price volatility of natural gas as the cost of natural gas is pass through under the Urea pricing policy if the consumption is within the permissible norms. The Company did not enter any transaction for hedging the commodity price risk.

The foreign exchange risk of the Company arises mainly out of import of fertilizers. The Company continuously monitors its foreign exchange exposure and hedges its foreign exchange risk exposure to the extent considered necessary through forward contracts and option structures.

Management Discussion and Analysis

Global Economic Scenario

The global economy in 2024–25 has been marked by moderate but uneven growth, shaped by inflationary pressures, geopolitical conflicts, energy crisis and impact on trade. While the long-term trajectory remains positive—driven by technological innovation, digitalization, and sustainability initiatives—the near-term outlook is clouded by inflation and persistent geopolitical risks.

Global GDP growth for 2024 was estimated at around 3% (IMF), reflecting a slowdown from pre-pandemic averages. Advanced economies experienced subdued growth due to tight monetary policies, high borrowing costs, and weak demand.

Inflation, though easing in several regions, remained above central bank targets in 2024, driven by energy price fluctuations, labour market rigidities, and supply chain adjustments. Major central banks—including the U.S. Federal Reserve, European Central Bank, and Bank of England—maintained higher-for-longer interest rates, balancing inflation control against recession risks. Elevated borrowing costs weighed on consumer spending, housing markets, and private investments, slowing down overall demand.

The Russia–Ukraine conflict continued to disrupt global food and energy markets, pushing Europe further toward renewables, LNG, and diversified energy imports. The Israel–Palestine war strained global logistics networks, adding uncertainty to trade routes and supply costs. The transition to renewable energy accelerated, with governments and corporates investing in solar, wind, hydrogen, and storage technologies. Traditional fossil fuels remained volatile, with OPEC+ supply decisions, sanctions, and demand uncertainty shaping global oil and gas prices.

The global economic outlook for 2025 remains cautiously optimistic. Economies that can balance inflation control with growth, foster innovation, and embrace green energy transitions are likely to consolidate leadership in the coming decade. However, high debt levels, geopolitical uncertainties, and energy security concerns will continue to pose challenges.

Indian Economic Scenario

India remained one of the fastest-growing major economies in 2024, with GDP growth estimated at ~6–6.5%. Growth driven by domestic demand, government capex, private investment, and a robust services sector (IT, finance, healthcare). Global headwinds exist, but India's growth outlook for 2025 remains resilient and broad-based.

Inflation moderated compared to previous highs but remains a policy focus. The RBI maintained elevated interest rates—balancing growth support with inflation management.

Policy push through Make in India and PLI schemes boosting sectors like electronics, pharmaceuticals, automotive, defense, and semiconductors. Rising FDI inflows and diversification of global supply chains positioning India as a competitive manufacturing hub.

Large-scale investments in roads, railways, ports, airports, and digital infrastructure continued as a key growth driver. Infrastructure expansion enhancing connectivity, logistics efficiency, and industrial growth.

Agriculture showed productivity gains via technology, irrigation, and crop diversification. Challenges persist: climate risks, erratic monsoons, farm income disparities. Rural development initiatives (infrastructure, digital access, financial inclusion) helping, but rural distress remains a concern.

Strong progress in renewables (solar, wind, green hydrogen); India emerging as a clean energy leader. Reliance on coal remains high, creating a challenge in balancing energy security and climate commitments amid rising demand.

India's growing influence in trade, manufacturing, technology, and sustainability strengthens its position as a key global economic player. Strategic reforms and sustained growth reinforce India's role as a driver of global economic momentum in the coming decade.

Agriculture Sector

Agriculture contributes ~16% of GDP and employs nearly 50% of India's workforce. While its GDP share is gradually declining with industrial and services growth, the sector remains critical for food security, rural livelihoods, and employment.

Sector growth remained moderate in 2024, supported by food demand and rural income programs. MSP continues for rice and wheat, though policy focus is shifting toward crop diversification and high-value crops. Direct support through PM-Kisan provides income stability for small and marginal farmers.

Adoption of precision agriculture (drones, satellite monitoring, IoT sensors) improving productivity and resource efficiency. Digital platforms and agri-tech apps expanding access to real-time weather, pricing, and market linkages, reducing intermediaries.

Rising adoption of organic farming, reduced chemical use, and climate-resilient practices, supported under the National Mission for Sustainable Agriculture (NMSA).

Strengthened supply chains with investments in cold storage, warehouses, logistics, and transportation, reducing post-harvest losses. e-NAM platform expanding market access for farmers, though adoption is still uneven, with reliance on traditional mandis persisting.

Agriculture is transitioning toward a more technology-driven, diversified, and climate-resilient sector. Long-term growth hinges on irrigation coverage, climate adaptation, digital adoption, and supply chain modernization.

Fertilizer Sector

India remains one of the largest global consumers of fertilizers, with urea, DAP, and MOP as key inputs. Fertilizer consumption continued to rise in 2024–25, despite volatile international prices for finished fertilizers and raw materials / intermediates resulted in fall in import of fertilizers. The sector contributes significantly to agricultural productivity, food security, and rural livelihoods.

Supply of domestic gas to fertilizer plants has been declining over the year, this made fertilizer plants more dependent on imported LNG.

Government-led campaigns promoting balanced fertilizer use to address over-dependence on urea and improve soil health.

Urea pricing remains regulated, while other fertilizers (e.g., DAP) operate under market-linked pricing with subsidies. The sector is highly regulated, with intense competition focused on supply reliability and efficiency.

India is expanding domestic fertilizer capacity under Atmanirbhar Bharat by reviving defunct plants and modernizing existing units. Despite progress, dependency on imports for phosphate and potash remains high. India has pursued long-term supply agreements with resource-rich nations (Russia, Canada, Morocco) to mitigate global price volatility.

Russia-Ukraine conflict and global supply chain disruptions continued to impact fertilizer availability and pricing in 2024. Rising input costs (natural gas for urea, phosphoric acid for DAP) add to pricing and production challenges.

Strong policy push for organic and bio-fertilizers, integrated nutrient management, and reduced chemical fertilizer use. Launch of nano-urea and precision nutrient solutions expected to improve efficiency and reduce environmental footprint. Programs like the National Mission on Sustainable Agriculture (NMSA) encourage sustainable practices across farming communities.

India aims to achieve greater self-reliance in fertilizers and potentially emerge as a net exporter of urea in the medium term. The sector's future will hinge on: Diversifying raw material sources, Modernizing plants for efficiency, Scaling bio-fertilizer adoption, Balancing environmental sustainability with productivity needs

STANDALONE FINANCIAL STATEMENTS

INDEPENDENT AUDITOR'S REPORT

To the Members of

M/s Nagarjuna Fertilizers and Chemicals Limited

Report on the Audit of Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying Ind AS Standalone Financial Statements of M/s NAGARJUNA FERTILIZERS AND CHEMICALS LIMITED ("the company"), which comprise the Balance Sheet as at 31st March, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of changes in equity and the Statement of Cash Flows for the year then ended on that date and notes to financial statements including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of "the Company" as at March 31, 2025, its Profit including total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion:

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of "the Company" in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

a) Relating to Going Concern:

- i Consequent to the settlement of Debt vide receipt of sale proceeds from Core and Non-Core assets by ACRE, there are no other assets including property plant and equipment left with the Company for operations. "No Dues and Security release Certificate" from ACRE was received on 11th July 2024, thereby affecting the Going Concern of the Company and accordingly drawn the Financial statements for the year ended on March 31, 2025." – Refer Note No. 29 to the Standalone Financials.
- ii Without considering the energy and other claims from the Government, the current liabilities exceed the current assets by Rs. 86,095.55 Lakhs.

- b) There are claims against the company, which are not acknowledged as debts and are disputed in various forums, courts, appeals, including arbitration awards amounting to Rs 81,596.07 lakhs. – Refer Note No. 32 to the Standalone Financials.

GAIL has recovered interest in the past and also raising claims for interest on the amounts due which is being disputed by the company. The company is not accounting for further interest from 1st July 2024 onwards.

- c) Given the financial situation, NFCL has assigned its rights in favor of AMPL to represent it in all legal forums/proceedings to pursue claims from GAIL including Arbitration claim in its name as an assignee along with agency coupled with interest under the provisions of Indian Contract Act, 1872. Should GAIL satisfy the award in the future, NFCL shall use the award as it deems fit after clearing its liabilities. – Refer Note No. 32.4 to the Standalone Financials.
- d) De-escalation of Urea subsidy and De-escalation of Gas Costs used as Raw material and generation of Power for FY 2022-23.

The Subsidy income is recognised based on the notified Gas Pool prices for the time being in force and upon final notification of the prices the escalation / de-escalations are accounted for in the year in which these notifications are issued. During the 3rd quarter, the final Gas Pool price for the year 2022-23 has been notified by the DOF (Annual cumulative Gas Pool price has come down) in line with which GAIL has issued Credit note and NFCL has recognized reduction in Gas Costs by Rs. 17,555.01 Lakhs and correspondingly NFCL has reduced its Urea Subsidy claim by Rs. 16,879.16 Lakhs for FY 2022-23. Accordingly, the reduction in cost of raw material / power and fuel and consequent de-escalation of the subsidy revenues, respectively, belonging to FY 2022-23 have been accounted in line with the said notification and continued accounting policy. Further adjustments required, if any, will be considered on notification of final prices. As there is no production from 4th June 2024 onwards, there is no revenue from Operations to be recognized from the second quarter. – Refer Note No. 30 to the Standalone Financials.

- e) The Government from time to time extended the present energy norms which were valid till 31st March 2023. Accordingly, Subsidy income is recognized based on Target Energy Norms as per NUP-2015 policy for the Quarter ended June 2024 and there is no production from June 2024 as the Plants were sold. – Refer Note No. 30 to the Standalone Financials.
- f) Claim from a related party asserting its right for Royalty for the period from 29.01.1998 to 31.12.2021. The company agreed without impairment and prejudice to the rights of AMPL to settle the claims in a manner such that the dues are secured and paid on a priority basis from the receipts if any from claims against GAIL if and when GAIL satisfies the award in relation to pipeline accident. – Refer Note No. 32.5 to the Standalone Financials.

Our conclusion is not modified in respect of the above matters.

V. Key Audit Matters:

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

S. No.	Key Audit Matter	How the matter was addressed in our audit
i)	<p>Recognition, measurement, presentation and disclosures of revenue from operations.</p> <p>“The Company” revenue from operations comprises of sale value of Urea and the Subsidy received from Govt of India.</p> <p>We identified this as a Key Audit Matter since the recognition of subsidy revenue and the assessment of recoverability of the related subsidy receivables is subject to significant judgements of the management. Since the sale and the eligible subsidy are interlinked and further the claim for subsidy depends on various government notifications issued from time to time, it is important to verify the correctness of the revenue from operations recognised in the books of account.</p> <p>Refer Note No. 20 in the Standalone financial statements.</p>	<p>Principal Audit procedures performed:</p> <ul style="list-style-type: none"> • Verified various applicable Govt notifications under which the subsidy was notified. • Verified the sales made and related claims for subsidy with the records/ certificates submitted to the Government. • Performed analytical procedures for reasonableness of revenue and subsidy recognised vis a vis the sales made. • We evaluated the management's assessment regarding reasonable certainty of complying with the relevant conditions as specified in the notifications/policies. • We evaluated adequacy of disclosures in the Standalone Ind AS Financial Statements.
ii)	<p>Provision for Expected Credit Loss in accounts receivables.</p> <p>The credit loss provision in respect of account receivables represent management's best estimate of the credit losses incurred on the receivables at the balance sheet date.</p> <p>We have identified provisioning for credit loss as a key audit matter as the calculation of credit loss provision is a complex area and requires management to make significant assumptions on customer payment behavior and estimating the level and timing of expected future cash flows. [Refer Note No. 7 in the standalone financial statements]</p>	<p>Our audit procedure in respect of this area included:</p> <ul style="list-style-type: none"> • Understand and assess the management's estimate and related policies used in the credit loss analysis • Performed test of key controls to analyse operating effectiveness relating to calculation of impairment provisions. • For Expected Credit Loss (ECL) of trade receivables assessed on individual level by the management, examined on a test check basis, the objective evidence relating to the impairment of trade receivables and the key assumptions used in the estimate of the cash shortfalls and reviewed whether amounts have been recovered after the end of reporting period. • Reviewed the management's ageing analysis based on days past due by examining the original documents (such as invoices). • Verified the calculation of ECL of each type of trade receivables.

Information Other than the Standalone Ind AS financial statements and Auditor's Report Thereon

The Company's management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance. We are required to report that fact; we have nothing to report in this regard.

Management and Board of Directors Responsibility for the Ind AS Standalone financial statements:

The Company's Board of Directors are responsible for the matters stated in section 134(5) of "the Act" with respect to the preparation of these Ind AS Standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the accounting Standards specified under section 133 of "the Act". This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the IND AS Standalone Financial Statements

Our objective is to obtain reasonable assurance whether the Standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone financial statements.

As our audit is conducted in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entity or business activities of the Company to express an opinion on the financial statements.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of Standalone financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the companies (Auditor's Report) Order, 2020 ('the order') issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "**Annexure A**", a statement on the matters specified in the paragraph 3 and 4 of the order.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of NAGARJUNA FERTILIZERS AND CHEMICALS LIMITED of even date)

Report on the Internal Financial Controls over Financial Reporting under clause(i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of M/s NAGARJUNA FERTILIZERS AND CHEMICALS LIMITED (“the Company”) as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating We believe that the audit evidence we have obtained is sufficient and appropriate to provide opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with reference to these IND AS financial statements:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the company has in all material respects, an adequate internal financial controls over financial reporting with reference to these IND AS financial statements and such internal financial controls over financial reporting were operating effectively as at 31st March, 2025, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute Of Chartered Accountants of India.

1 CORPORATE INFORMATION

Nagarjuna Fertilizers & Chemicals Limited (The company/NFCL) is a public listed company domiciled in India, incorporated under the provisions of the Companies Act 1956. Its shares are listed on The Bombay Stock Exchange and The National Stock Exchange Of India. The registered office of the company is situated at D.No 8-2-248, Nagarjuna Hills, Punjagutta, Hyderabad - 500082. The Company is principally engaged in the business of manufacturing and marketing of Fertilizers and Micro Irrigation Equipments.

2 MATERIAL ACCOUNTING POLICIES

2.1. Basis of preparation:

The Financial Statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 as amended, on accrual basis under the historical cost convention, except for Derivative financial instruments and certain financial instruments, which are measured at fair value.

The Financial Statements are presented in INR and all values are rounded to two decimals to the nearest lakhs, except when otherwise indicated.

The financial statements have been approved for issue by the Board of Directors of the Company in its meeting held on 30th May 2025.

2.2. Use of estimates:

The preparation of Financial Statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively. Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have a significant effect on the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- i. Measurement of defined benefit obligations - Note 25.1
- ii. Recognition of deferred tax asset/Liability- Note 17
- iii. Fair Value Measurement of financial Instruments - Note 35
- iv. Recognition of subsidy income - Note 20
- v. Provision for doubtful trade receivables - Note 7

2.3. Current versus non-current classification

An asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is held primarily for the purpose of trading;
- iv. the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- v. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- vi. in the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Company has decided its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

2.4. Property, Plant and Equipment (PPE)

Property, plant and equipment is stated at acquisition cost, net of accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.

All repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred. Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as Capital work-in-progress.

Depreciation is provided on pro-rata basis under the straight-line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013 with the following exception:

- Continuous Process Plants' are depreciated for 37 years based on the technical evaluation of useful life done by the management.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

Upon first-time adoption of Ind AS, the Company has elected to measure all its property, plant and equipment at

the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2015.

2.5. Intangible assets

Separately purchased intangible assets are initially measured at cost. Intangible assets acquired in a business combination are recognised at fair value at the acquisition date. Subsequently, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives. Estimated useful lives by major class of finite-life intangible assets are as follows:

Trademarks and Services: 10 years

The amortisation period and the amortisation method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

Upon first-time adoption of Ind AS, the Company has elected to measure all its intangible assets at the previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2015.

2.6. Impairment of non-financial assets

Assessment for impairment is done at each Balance Sheet date for any indication that a non-financial asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit.

If any indication of impairment exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made. Asset/cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognizing the impairment loss as an expense in the Statement of Profit and Loss. Recoverable amount is the higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date for any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased, in which case, a reversal of an impairment loss for an asset is recognised in the Statement of Profit and Loss account.

2.7. Inventories

Inventories are valued at the lower of cost and net realisable value. Materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Costs for different categories of inventories are as follows:

- Raw materials and Traded Products: Cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

- Finished goods and work in progress: Cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Net realisable value in the case of Urea is –

- the Group Concession Price notified by the Government of India in respect of finished goods lying at the factory, and
- the net sale price in respect of finished goods lying in the warehouses outside the factory.

Raw materials, work-in-progress, stores, spares, packing material and loose tools are valued at weighted average cost, less provision for depletion in value, if any.

2.8. Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

2.9. Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

A. Financial assets

(i) Initial recognition

On initial recognition, financial assets other than Trade Receivables are recognised at fair value. Transaction cost that are directly attributable to acquisition of financial assets that are not at fair value through profit and loss (FVTPL) are added to fair value on initial recognition.

ii) Subsequent measurement:

Financial assets which are debt instruments are subsequently measured on the following basis, depending on their classification

- amortized cost
- fair value through profit and loss (FVTPL)
- fair value through other comprehensive income (FVOCI)

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

(iii) When financial assets are Equity Instruments:

All equity investments in the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income (OCI) subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. Fair

value changes on an equity instrument are recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI.

Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

(iv) De-recognition:

The Company derecognizes a financial asset when the contractual right to the cash flows from the financial asset expires or it transfers the financial asset and at the transfer qualifies for de-recognition under IND AS 109.

(v) Trade Receivables and Loans:

Trade receivables that do not contain a significant financing component are measured at transaction price. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

(vi) Impairment:

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category.

For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall. The impairment losses and reversals are recognised in Statement of Profit and Loss.

B. Financial liabilities:

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

(i) Initial recognition and measurement:

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and financial liabilities at amortised cost as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of liabilities measured at amortised cost, net of directly attributable transaction costs.

(ii) Subsequent measurement:

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at fair value through profit or loss.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

(iii) Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another financial liability on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

C. Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and options contracts to mitigate risk of changes in exchange rates on foreign currency exposure.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any gains or losses arising from re-measurement are dealt in Statement of profit or loss.

This category has derivative financial assets or liabilities which are not designated as hedges. Although the company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS109, Financial Instruments, and hence categorized as financial assets or liability at fair value through profit or loss.

D. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.10. Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the Financial Statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.11. Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are not recognised. They are disclosed only when an inflow of economic benefit is probable from such assets.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

2.12. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discount and the schemes offered of the company as part of the contract.

The specific recognition criteria described below must also be met before revenue is recognised.

Sale of Goods:

The company recognises revenue in accordance with Ind AS 1154 - Revenue from Contracts with Customers by applying the following five steps:

- * Identify the contract with a customer
- * Identify the performance obligations in the contract
- * Determine the transaction price;
- * Allocate the transaction price to the performance obligations in the contract; and
- * Recognise revenue when (or as) the performance obligations is satisfied

Revenue from the sale of goods is recognised when (or as) control of the goods is transferred to the customer, i.e. when the customer obtains the ability to direct the use of and obtain substantially all of the remaining benefits from the goods.

In case of goods supplied subject to installation and inspection, revenue is recognised when the installation and inspection are completed and control of the goods has been transferred to the customer.

Subsidy:

Subsidy on Group Concession Price under Group Concession Scheme (GCS) and Freight are recognized in accordance with the norms prescribed by the Government of India – Fertiliser Industry Co-ordination Committee, with adjustments for escalation / de-escalation in the prices of inputs and other adjustments as estimated by the management in accordance with known policy parameters in this regard.

Rendering of services:

Revenue from sale of services is recognised as per the terms of the contract with customers based on stage of completion when the outcome of the transactions involving rendering of services can be estimated reliably.

Interest income:

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable using effective interest method .

Dividends:

Revenue is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

2.13. Employee benefits**(i) Gratuity:**

In accordance with the Payment of Gratuity Act, 1972 the Company provides gratuity as a defined benefit plan, to eligible Employees. Liability with regard to gratuity is determined by an independent actuary at every Balance Sheet date using the projected unit credit method.

The Company recognizes the net obligation of a defined benefit plan in the Balance Sheet as asset or liability. Gains or losses on re-measurements are recognized in Other Comprehensive Income (OCI). Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to Statement of Profit and Loss.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss.

(ii) Superannuation fund and provident fund:

Superannuation and Provident Fund are in the nature of defined contribution plans.

The Company makes monthly contribution to approved superannuation fund covered by a policy with LIC of India. The Company has no further obligation beyond monthly contribution. The obligations under the said policy are accounted for on accrual.

The Company makes monthly contribution to the Provident Fund scheme and recognizes it as an expense, in the year in which employee renders the related service. The Company's Contribution towards Provident Fund is administered and managed by an approved trust. The Company has no obligation, other than the contribution payable to the Fund.

(iii) Compensated absences:

Liability for compensated absence is treated as a long term liability and is covered by a policy with Life Insurance Corporation (LIC). The estimated liability at each Balance Sheet date is determined by an independent actuary using the projected unit credit method and is recognised in the accounts accordingly.

2.14. Taxes**(i) Current income tax:**

Income tax expense is recognised in the statement of profit or loss except to the extent that it relates to items recognized directly in equity or Other Comprehensive Income (OCI), in which case the tax is also recognized in equity or Other Comprehensive Income (OCI).

The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax asset/liability is measured at the amount expected to be recovered from or paid to the taxation authorities.

(ii) Deferred tax:

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the Balance Sheet date.

Deferred tax assets are recognised to the extent it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent there is no longer probable that the related tax benefit will be realized. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.15. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

In the case of a loan or assistance provided by government or related institutions with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The Grant is initially recognised and measured at fair value and subsequently measured in accordance with the recognition and measurement principles of Ind AS 109, Financial Instruments (financial liabilities). The government grant is measured as the difference between the initial carrying value of the loan and the proceeds received and recognised as income on a systematic basis over the periods the related costs, for which it is intended to compensate, are expensed.

2.16. Leases

The Company, at the inception of a contract, assesses whether the contract is a lease or not. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a time in exchange for a consideration. This policy has been applied to contracts existing and entered into on or after 1 April 2019.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently amortised using the straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense over the lease term.

2.17. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset in the period in which they are incurred, until such time the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. Interest earned on temporary investments out of specific borrowings made for qualifying assets is deducted from the borrowing costs eligible for capitalisation to those assets.

2.18. Research and development costs

Expenditure relating to capital items is treated as fixed assets and depreciated at applicable rates. Revenue expenditure during research period is charged to Statement of Profit and Loss in the year in which it is incurred.

2.19. Foreign currency transactions

The Company's Financial Statements are presented in Indian Rupees, which is its functional currency.

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency denominated monetary assets and liabilities remaining unsettled at the end of the year are translated into functional currency at exchange rates prevailing at the Balance Sheet date. Exchange differences arising on translation of monetary items are recognised in Statement of Profit and Loss.

Non-monetary assets and liabilities denominated in foreign currency and measured at historical cost are translated using exchange rate prevalent on the date of transaction. Non-monetary assets and liabilities denominated in foreign currency and measured at fair value are translated using the exchange rates at the date when the fair value was determined.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or Statement of Profit and Loss are also recognised in OCI or Statement of Profit and Loss, respectively).

2.20. Earnings per share

Basic earnings per equity share is computed by dividing the net profit for the year attributable to the Equity Shareholders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the net profit for the year, adjusted for the effects of dilutive potential equity shares, attributable to the Equity Shareholders by the weighted average number of the equity shares and dilutive potential equity shares outstanding during the year except where the results are anti-dilutive.

2.21. Investments

Investments are classified as Non Current and Current. Non Current Investments are carried at cost less provision for other than temporary diminution, if any, in value of such investments. Current investments are carried at lower of cost and fair value.

2.22. Exceptional Items

Exceptional items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items are disclosed separately as exceptional items.

Income tax Rate	31.20	31.20
Income tax	75,964.39	(40,486.06)
Current year losses on which deferred tax asset not considered	-	9,143.84
Previous year losses for which created deferred tax assets	-	-
Non-deductible expenses for tax purposes:		
Other non-deductible expenses	184.76	30,043.58
Net tax Expense charged to P&L	34,339.11	(1,298.64)

(c) During the year, the Company has not recognized any deferred tax assets or liabilities in the financial statements. This decision is in line with Ind AS 12 - Income Taxes, which requires the recognition of deferred tax only to the extent that it is probable that sufficient future taxable profits will be available against which deductible temporary differences and carry-forward losses can be utilized. The primary reasons for the non-recognition of deferred tax are as follows:

1. Sale of Assets:

Assets Care Reconstruction Enterprise (ACRE), Secured Creditor, invoked SARFAESI Act 2002, took symbolic possession of all assets on 12th Oct 2023, entered into an OTS agreement and had recovered debt from sale of core assets (Urea and MI facilities), non-core assets (all assets other than Urea and MI assets) amounting to Rs.1685 Crores and Rs. 200 crores respectively totaling to Rs. 1885 crores plus cutback pending and due till June 30, 2024, towards full and final settlement of debt outstanding of Rs. 3858 Crores claimed by ACRE as of 10th December 2023.

The Board of Directors on May 31, 2024, took note of the issue of Sale Certificate by ACRE and handover of Physical Possession of Core Secured Assets of NFCL to AM Green Ammonia (India) Private Limited, the buyer.

Consequently, ACRE has issued a No Due Certificate dated 11th July 2024, confirming that NFCL stands unconditionally and irrevocably released and discharged of any liabilities, dues, demands or claims in respect of the outstanding debt, other amounts due and payable to ACRE, including release of all security created in favour of ACRE, personal guarantees and pledge of shares of NFCL held by promoter (Amlika Mercantile Private Limited). NFCL, as on 11th July, 2024, does not have any term loans and working capital debt outstanding with the Banks.

There were no PPE available for operations in view of recovery from sale of Assets by the Lenders. Ammonia/Urea plants operated up to 4th June 2024, i.e., one plant till 31st May 2024 and the other plant till 04th June 2024, Micro Irrigation Plants operated till 31st May 2024.

Post the recovery by ACRE there are no physical assets (which includes all Property, Plant, and Equipment (PPE)) remaining with the company.

As there are no remaining physical assets including PPE assets, there is no difference between the Income Tax Block and the Company's Act Block, which would otherwise give rise to temporary differences that need to be recognized for deferred tax purposes.

2. Reduction in Operations:

Following the recoveries by ACRE, the Company does not have any revenue generating activities and operations have significantly reduced. The company is currently focusing mainly on recovery of its remaining claims and dues and settlements of operating debt. Given the current status of operations and levels of net current liabilities, there is no expectation of continuing operations or generating taxable profits in the near future.

3. Set-off of Carry-forward Losses:

The Company has carry-forward losses under the Income Tax Act, 1961, which, in the view of the management, will likely be set off against future taxable profits, if any. However, in light of the reduced operations and the absence of foreseeable taxable profits, the Company does not anticipate being able to utilize the deferred tax assets.

As a result, the Company has not recognized any deferred tax assets or liabilities for the year.

(d) The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities as they relate to income taxes levied by the same tax authority.

29. Material Uncertainty on the Company's ability to continue as a going concern and appropriateness of use of going concern basis of accounting in preparation of financial statements.

i). Consequent to the settlement of Debt vide receipt of sale proceeds from Core and Non- Core assets by ACRE, there are no other assets including property plant and equipment left with the Company for operations. "No Dues and Security release Certificate" from ACRE was received on 11th July 2024, thereby affecting the Going Concern of the Company and accordingly drawn the Financial statements for the year ended on March 31, 2025.

ii) Without considering the energy and other claims from the Government, the current liabilities exceed the current assets by Rs. 86,095.55 Lakhs.

Accordingly, Financial Statements for the FY 2024-25 has been prepared on not a going concern basis

30. (i) Government of India announced New Urea Policy (NUP)-2015 and Gas Pooling Policy for Fertilizer (Urea) Sector which are effective from 1st June 2015 to 31st March 2019. Government of India extended the NUP -2015 from 1st April 2019 until further orders. Income from Urea Operations has been recognised in accordance with the said policies. Income towards freight subsidy, Reimbursement claims towards additional fixed cost, Input escalation / de-escalation, have been recognized for the year ended on March 31, 2025 in terms of the said policies.

(ii) De-escalation of Urea subsidy and De-escalation of Gas Costs used as Raw material and generation of Power for FY 2022-23.

The Subsidy income is recognised based on the notified Gas Pool prices for the time being in force and upon final notification of the prices the escalation / de-escalations are accounted for in the year in which these notifications are issued. During the 3rd quarter the final Gas Pool price for the year 2022-23 has been notified by the DOF (Annual cumulative Gas Pool price has come down) in line with which GAIL has issued Credit note and NFCL has recognized reduction in Gas Costs by Rs. 17,555.01 Lakhs and correspondingly NFCL has reduced its Urea Subsidy claim by Rs. 16,879.16 Lakhs for FY 2022-23. Accordingly, the reduction in cost of raw material / power and fuel and consequent de-escalation of the subsidy revenues, respectively, belonging to FY 2022-23 have been accounted in line with the said notification and continued accounting policy. Further adjustments required, if any, will be considered on notification of final prices. As there is no production from 4th June 2024 there is no revenue from Operations to be recognised from 2nd quarter.

(iii) The Government extended the preset energy norms which were valid till 31st March 2023. Accordingly, Subsidy income is recognized based on Target Energy Norms as per NUP-2015 policy for the Quarter ended June 2024 and there is no production from June 2024 as the Plants were sold.

31. Impairment of Property Plant & Equipment

No impairment test for PPE's carried out.

32. Contingent Liabilities and Commitments (to the extent not provided for)

Rs. in Lakhs

	March 31, 2025	March 31, 2024

- Compensation for 33.35 acres (Previous year 33.35 acres) of land in Company's possession - amount not ascertainable	-	-
- Claim for using the "Nagarjuna Brand/ Trade mark" - amount not ascertainable (Refer note 32.2)	-	-
- Claims from various creditors who have filed petitions before court/ tribunals - amount not quantified (Refer No.32.3)	-	-
	81,596.07	63,874.19
B. Commitments		
Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advance)	-	1,068.90

GAIL has recovered interest in the past and also raising claims for interest on the amounts due which is being disputed by the company. The company is not accounting for further interest from 1st July 2024 onwards.

32.1 (a) There are various claims against the company which are in dispute in various forums, courts, appeals, including arbitration awards.

(b) In relation to some of the contracts for purchase of fertilisers, an international Arbitration Award has been passed against the Company in September 2016 for USD 14,398,188 and GBP 690,630 and interest as applicable apart from costs based on a claim filed by one of the Suppliers of Fertilizers to the Company.

The Company is of the view that the Award has been obtained based on documents tampered with and mis-representations of facts by said supplier. The Company is contesting the enforcement of the Award in the Courts in India and has also filed a Criminal Complaint before the Metropolitan Magistrate of Hyderabad against the supplier and its officials. Judgement came in favour of the Company, aggrieved by the Judgement, supplier made an appeal to the Supreme Court of India. Matter yet to be heard.

(c) The Company entered into two Contracts dated December 15, 2012 on Early Works, Offshore and Onshore towards certain engineering drawings to be utilised towards its plant for third ammonia and urea project on conditions that balance amounts payable only upon (a) the announcement of a fertilizer policy and (b) that the fertilizer policy being found favorable for the Project of the Company. The Company could not proceed further as the policy was not conducive for the project.

The service provider raised invoices for the balance amounts claiming that the work carried out was per contract. As the amounts were not paid the service provider invoked arbitration. The arbitral Tribunal passed an award on October 23, 2017 for USD 877,500, GBP 52,314, EUR 455,000 and INR 221.39 Lakhs and interest as applicable apart from costs in favour of the claimant. NFCL challenged the Awards by filing two petitions separately for each case under section 34 of Arbitration & Conciliation Act as the tribunal ignored vital evidence such as Govt communication dt 9th May 2013 where in the industries we're asked not to proceed further without necessary approvals from Govt, amongst other grounds. Matter yet to be listed for hearing.

Based on the current legal progress, the management has provided for 25% of the claim made on the Offshore contract and deposited 15% of the onshore contract value with the court. The Company continues to proceed legally and hence the balance claims have been disclosed as contingent liabilities.

32.2 Various other Cases / Petitions filed against the company in NCLT / Courts / Other Tribunals:” Few other creditors have filed petitions against the company in various Courts / Tribunals for recovery of dues / claims for compensation for their services / supplies and all these matters are at various stages in the respective courts. The legal counsels opined that these cases / petitions filed against the company are not tenable and are of the view that these cases may not have any impact on the financials of the company.

Basis the legal opinion the management is of the view that the other pending litigations may not have any adverse impact on the financial position of the company as at the year end. If and when this assumption changes and they do become material and adversely it will be appropriately reported as per the extant guidelines.

32.3 Amlika Mercantile Private Limited (AMPL), Core Promoter of the Company had preferred an appeal before Hon'ble National Company Law Appellate Tribunal (NCLAT), Chennai, against the Order dated 27.08.2021, passed by the 'National Company Law Tribunal', Hyderabad Bench, admitting the Nagarjuna Fertilizers and Chemicals Limited (NFCL) into Corporate Insolvency Resolution Process (CIRP) under Insolvency and Bankruptcy Code, 2016.

Basis the appeal of AMPL, Hon'ble NCLAT, Chennai, vide order dated October 05, 2023, has allowed the appeal by setting aside the impugned order dated August 27, 2021, passed by Hon'ble NCLT, Hyderabad Bench. Thereby, the Company exited CIRP under IBC, 2016 effective October 05, 2023.

AMPL has claims the legal expenses for the NCLAT appeal filed on behalf of the Company and the company is liable to reimburse the legal expenses to AMPL.

32.4 Claim by GAIL and against GAIL

i) Claim by GAIL

GAIL has filed a petition under section 9 of Arbitration and Conciliation Act, 1996, in Hon'ble High Court of Delhi, seeking relief for their outstanding dues. The Company is contesting the case disputing the total claim of GAIL stating that GAIL has stopped supplies in 2018 as the company was unable to comply with the gas supply agreement terms (as regards security and payment terms) and GAIL resumed supplies after intervention of DoF, MoCF, GoI assuring GAIL on payments and payment security via Office Memorandum (OM). The Government did not agree to pay GAIL within a specified period nor did it agree to reimburse GAIL of any interest as can be clearly seen in the Office Memorandum (OM) of DoF, basis of which resumed the gas supply. GAIL was fully aware of the impossibility of the company complying with the security and payment terms in gas supply and has communicated in writing in various legal forums and with DoF that it started supplies only after security and assurances of payment from DoF. Despite this GAIL has adjusted payments/recovered interest since 2018 and also raising claims for interest post the sale of assets on the amounts due. The company is disputing interest being claimed by GAIL with GAIL, with DoF and in Legal Forums.

ii) Claims Against GAIL

The company had lost the GAIL arbitration case in 2023. The company filed an application under section 34 of Arbitration and Conciliation Act 1996 which is pending adjudication in Delhi High Court since 2023. All the assets of NFCL have been sold basis the secured creditor invoking SARFAESI. The company's accounts have been drawn up accordingly as a non-going concern. Given the financial situation NFCL assigned its rights in favour of AMPL to represent it in all legal forums/proceedings to pursue claims from GAIL including Arbitration claim in its name as an assignee along with agency coupled with interest under the provisions of Indian Contract Act, 1872. Should GAIL satisfy the award in the future, from the net proceeds, NFCL shall use the award as it deems fit after clearing its liabilities.

32.5 The Company has been using the Nagarjuna Brand I Trademarks for its urea and other products under a license agreement Dt 29/01/1998 with the grantor, a related party. The company, during the period ended on 31.12.2021, received a claim from the grantor asserting its right to royalty for the period from 29/01/1998. The company agreed without impairment and prejudice to the rights of AMPL in any manner whatsoever to settle the claims in a manner such that the dues are secured and paid/deducted on a priority basis from the receipts if any from claims against GAIL if and when GAIL satisfies the award in relation to pipeline accident The Dolaramud.; trademark/mascot being used by the Group and by NFCL in urea packaging. After the government letter dated August 18, 2023, on One Nation One Fertilizers by introducing Single Brand for fertilizers and Logo under fertilizer subsidy scheme, the company has discontinued use of trademark and did not renew the trademark. The group agreed to continue the trademark. Based on the agreed terms with NACL the company has written to NACL to stop utilising the Nagarjuna name, group logo or trademarks vide letter dated 28th May 2025 after hearing news that there is a change in company's ownership and management.

37. Financial risk management objectives and policies

Financial Risk Management Framework

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans and advances, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Company is exposed primarily to Credit Risk, Liquidity Risk and Market risk (fluctuations in foreign currency exchange rates and interest rate), which may adversely impact the fair value of its financial instruments. The Company's senior management oversees the management of these risks. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company based on the policies agreed by the Company's senior management. The same are summarised below:

A. Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company result in material concentration of credit risk except trade receivables where more than 50% is due from Government of India and various State Governments. The same are realisable in due course.

To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as :

- (i) Actual or expected significant adverse changes in business,
- (ii) Actual or expected significant changes in the operating results of the counterparty,
- (iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- (iv) Significant increases in credit risk on other financial instruments of the same counterparty,
- (v) Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the company. The company categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than 2 years past due. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

Investments of surplus funds are made only with approved authorities. Credit limits of all authorities are reviewed by the Management on regular basis.

B. Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

Year ended March 31, 2025

C. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk for the entity comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include loans and borrowings and derivative financial instruments.

The sensitivity analyses in the following sections relate to the position as at March 31, 2024 and March 31, 2023

The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant in place at March 31, 2024.

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets.

The following assumptions have been made in calculating the sensitivity analysis:

- The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2024 and March 31, 2023.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The company's interest rate exposure is mainly related to variable interest rates debt obligations. The company uses a mix of interest rate sensitive loan facilities from the lenders to manage the liquidity and fund requirement for its day to day operations like working capital, short term loans and suppliers / buyers credit etc.,

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings with floating rate of interest affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Increase/decrease in basis points	Effect on profit before tax
	INR Lacs	
March 31, 2025		
INR	+50	
INR	-50	
March 31, 2024		
INR	+50	524.34
INR	-50	(524.34)

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency) and borrowings in foreign currency.

Particulars	USD in Million	Rs. in Lakhs	Euro in Million	Rs. in Lakhs
Foreign currency exposure as at 31st March, 2024

Loans and other receivables	-	-	-	-
Trade payables	1.54	(1,269.07)	0.003	(2.60)
Foreign exchange forward contracts	-	-	-	-

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in **USD and Euro** exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives. The Company's exposure to foreign currency changes for all other currencies is not material.

38. Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

CONSOLIDATED FINANCIAL STATEMENTS

INDEPENDENT AUDITOR'S REPORT

To the Members of

NAGARJUNA FERTILIZERS AND CHEMICALS LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of **M/s Nagarjuna Fertilizers and Chemicals Limited** ("the Holding Company") and its associate ("the Holding Company" and its associate together referred to as "the Group"), which comprise the consolidated Balance Sheet as at March 31st, 2025, the consolidated Statement of Profit and Loss (including other comprehensive Income), the consolidated Statement of Changes in Equity and the consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including a summary of the material Accounting Policies and other Explanatory Information ("the Consolidated Financial Statements").

The Consolidated Financial statements include the following entities

- a) Nagarjuna Fertilizers and Chemicals Limited (Holding)
- b) KVK Raju International Leadership Limited (Associate)

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated IND AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Accounting Principles Generally Accepted in India, of their consolidated state of affairs of the Company as at March 31, 2025, of consolidated profit, and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit of the financial statements of "the Group" in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of Financial Statements of "the Group" section of our report. We are independent of "the Group" in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements of "the Group" under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the financial statements of "the Group"

Emphasis of Matter Paragraph:

We refer to the following notes to "the Consolidated Financial Statement":

a) Relating to Going Concern:

- i Consequent to the settlement of Debt vide receipt of sale proceeds from Core and Non-Core assets by ACRE, there are no other assets including property plant and equipment left with the Company for operations. "No Dues and

Security release Certificate" from ACRE was received on 11th July 2025, thereby affecting the Going Concern of the Company and accordingly drawn the Financial statements for the year ended on March 31, 2025." – Refer Note No. 29 to the Consolidated Financials.

- ii Without considering the energy and other claims from the Government, the current liabilities exceed the current assets by Rs. 86,095.55 Lakhs.
- b) There are claims against the company, which are not acknowledged as debts and are disputed in various forums, courts, appeals, including arbitration awards amounting to Rs. 81,596.07 lakhs. – Refer Note No. 32 to the Consolidated Financials.

GAIL has recovered interest in the past and also raising claims for interest on the amounts due which is being disputed by the company. The company is not accounting for further interest from 1st July 2025 onwards.

- c) Given the financial situation, NFCL has assigned its rights in favour of AMPL to represent it in all legal forums/proceedings to pursue claims from GAIL including Arbitration claim in its name as an assignee along with agency coupled with interest under the provisions of Indian Contract Act, 1872. Should GAIL satisfy the award in the future, NFCL shall use the award as it deems fit after clearing its liabilities. – Refer Note No. 32.4 to the Consolidated Financials.
- d) De-escalation of Urea subsidy and De-escalation of Gas Costs used as Raw material and generation of Power for FY 2022-23.

The Subsidy income is recognized based on the notified Gas Pool prices for the time being in force and upon final notification of the prices the escalation / de-escalations are accounted for in the year in which these notifications are issued. During the 3rd quarter, the final Gas Pool price for the year 2022-23 has been notified by the DOF (Annual cumulative Gas Pool price has come down) in line with which GAIL has issued Credit note and NFCL has recognized reduction in Gas Costs by Rs. 17,555.01 Lakhs and correspondingly NFCL has reduced its Urea Subsidy claim by Rs. 16,879.16 Lakhs for FY 2022-23. Accordingly, the reduction in cost of raw material / power and fuel and consequent de-escalation of the subsidy revenues, respectively, belonging to FY 2022-23 have been accounted in line with the said notification and continued accounting policy. Further adjustments required, if any, will be considered on notification of final prices. As there is no production from 4th June 2025 onwards, there is no revenue from Operations to be recognized from the second quarter. – Refer Note No. 30 to the Consolidated Financials.

- e) The Government from time to time extended the preset energy norms which were valid till 31st March 2023. Accordingly, Subsidy income is recognized based on Target Energy Norms as per NUP-2015 policy for the Quarter ended June 2025 and there is no production from June 2025 as the Plants were sold. – Refer Note No. 30 to the Consolidated Financials.

f) Claim from a related party asserting its right for Royalty for the period from 29.01.1998 to 31.12.2021. The company agreed without impairment and prejudice to the rights of AMPL to settle the claims in a manner such that the dues are secured and paid on a priory basis from the receipts if any from claims against GAIL if and when GAIL satisfies the award in relation to pipeline accident. – Refer Note No. 32.5 to the Consolidated Financials.

Our Conclusion is not modified in respect of the above matter.

Key Audit Matters:

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the consolidated financial statements of the current period. These matters were addressed in the context of the audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the Key Audit Matters to be communicated in our report.

S. No.	Key Audit Matter	How the matter was addressed in our audit
i)	<p>Recognition, measurement, presentation and disclosures of revenue from operations.</p> <p>The company's revenue from operations comprises of sale value of Urea and the Subsidy received from Govt of India under various notifications, on the urea sold.</p> <p>We identified this as a Key Audit Matter since the recognition of subsidy revenue and the assessment of recoverability of the related subsidy receivables is subject to significant judgements of the management</p> <p>Since the sale and the eligible subsidy are interlinked and further the claim for subsidy depends on various government notifications issued from time to time, it is important to verify the correctness of the revenue from operations recognised in the books of account.</p> <p>(Refer Note No. 20 in the Consolidated Financial Statements.)</p>	<p>Principal Audit procedures performed:</p> <ul style="list-style-type: none"> • Verified various applicable Govt notification under which the subsidy was notified. • Verified the sales made and related claims for subsidy with the records/ certificates submitted to the Government. • Performed analytical procedures for reasonableness of revenue and subsidy recognised vis a vis the sales made. • We evaluated the management's assessment regarding reasonable certainty of complying with the relevant conditions as specified in the notifications/policies • We evaluated adequacy of disclosures in the Consolidated Ind AS Financial Statements.

Responsibility of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements

"The Holding Company's" Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these "Consolidated Financial Statements" that give a true and fair view of the financial position, financial performance, total comprehensive loss, changes in equity and

cash flows of "the Group" in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in "The Group" are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of "The Group" and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and

design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of “the Consolidated Financial Statements” that give a true and fair view and are free from material misstatement, whether due to fraud or error.

The respective Board of Directors of “the Holding Company” are responsible for overseeing the financial reporting process of “the Group”

Auditor’s Responsibility for the audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated IND AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated IND AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on “the Group’s” ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause “the group” to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Consolidated IND AS Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the “Consolidated Financial Statements” of the current period and are therefore the key audit matters. We describe these matters in our auditor’s report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements:

1. As required by Section 143(3) of the Act, based on our audit, we report that:
 - a) We have sought obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the accompanying “Consolidated Financial Statements”;
 - b) In our opinion, proper books of account as required by law have been kept by “the Group” so far as it appears from our examination of those books;
 - c) “The Consolidated Financial Statements” dealt with by this report are in agreement with the relevant books of account;
 - d) In our opinion, “the Consolidated Financial Statements” comply with the Ind AS specified under Section 133 of the Act and the rules made thereunder;
 - e) On the basis of the written representations received from the management as on March 31, 2025 taken on record by the Board of Directors of each company, none of the directors of the Group is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act;

f) With respect to the adequacy of the internal financial controls with reference to financial statements of “the Group” and the operating effectiveness of such controls, refer to our separate report in “Annexure A”.

g) With respect to the statement to be included in the Auditor’s Report pursuant to section 197(16) of the Act, as amended, we report that:

Based on the examination of documents and records of “the Group” and as per the information and explanations furnished to us, “the holding company” has paid the remuneration to its managing director during the year by obtaining the approvals from the lenders in terms of third proviso to sub-section (1) of section 197 of the Act.

2. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

a. “The Group”, as detailed in Note No. 32 in “the Consolidated Financial Statements”, has disclosed the impact of pending litigations on its financial position as at 31st March 2025.

b. “The Group” did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31st March 2025.

c. There has been no requirement to transfer any amounts, to the Investor Education and Protection Fund by “the Group” during the year ended 31st March 2025.

d. (i) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by “the group” to or in any other person(s) or entity(ies), including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the group (Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(ii) The management has represented, that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been received by “the group” from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that “the group” shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(iii) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) above contain any material mis-statement.

e. None of the Companies included in “the Group” has declared or paid any dividend during the year.

f. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the company as per the statutory requirements for record retention.

Other Matters

We did not audit the interim financial results of “the associate” included in the consolidated audited financial results, whose interim financial results reflect share of total assets of Rs. 0.00 as at 31st March, 2025, a total Revenues of Rs. 0.00 Lakhs and total comprehensive Income/ (loss) of Rs. 0.00 Lakhs for the year ended 31 March, 2025.

These financial results are unaudited and have been furnished to us by the Board of Directors and our opinion on the Statement, in so far as it relates to the amounts and disclosures included in respect of the associate, is based solely on such unaudited financial results. In our opinion and according to the information and explanations given to us by the Board of Directors, these interim Financial Results are not material to the Group.

Our opinion on the consolidated Financial Results is not modified in respect of the above matters with respect to the Financial Results/financial information submitted by the Board of Directors.

ANNEXURE A

Annexure to Independent Auditor's report of even date on "the consolidated IND AS financial statements" of "M/S. Nagarjuna Fertilizers and Chemicals Limited".

Report on the Internal Financial Controls under clause (i) of the Sub-section 3 of the Section 143 of the Companies Act, 2013 ('The Act')

We have audited the Internal Financial Controls with reference to the consolidated financial statements of Nagarjuna Fertilizers and Chemicals Limited ("the Holding Company") and its Associate company (Holding company and its Associate together referred to as "the Group") as of March 31, 2025 in conjunction with our audit of the consolidated financial statements for the year ended on that date

Management's Responsibility for Internal Financial Controls:

The Respective Board of Directors of "the Holding Company" and its Indian subsidiary, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective Group's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility:

Our responsibility is to express an opinion on the respective Group's internal financial controls over financial reporting based on our Audit. We conducted our audit in accordance with the Guidance note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an Audit of Internal Financial Controls. These standards and guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our Audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditor's Judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial control system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting:

A Group's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Group's internal financial control over financial reporting includes these policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of "the Holding Company"; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Group's assets that could have a material effect on "the Consolidated Financial Statements".

Inherent Limitation of Internal Financial Controls over Financial Reporting:

Because of the inherent limitation of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, Projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion:

In our opinion, the company has in all material respects, an adequate internal financial controls over financial reporting with reference to these IND AS financial statements and such internal financial controls over financial reporting were operating effectively as at 31st March, 2025, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute Of Chartered Accountants of India.

1 CORPORATE INFORMATION

Nagarjuna Fertilizers and Chemicals Limited (the holding company/NFCL) is a public listed company domiciled in India, incorporated under the provisions of the Companies Act 1956. Its shares are listed on The Bombay Stock Exchange and The National Stock Exchange Of India. The registered office of the company is situated at D.No 8-2-248, Nagarjuna Hills, Punjagutta, Hyderabad - 500082.

The holding company is principally engaged in the business of manufacturing and marketing of Fertilizers, Micro Irrigation Equipments and Agri Informatic Services.

2 MATERIAL ACCOUNTING POLICIES

Consolidated Accounts:

(A) The details of associates of the holding company as defined in Indian Accounting Standard 28 "Investments in Associates and Joint Ventures" .

	Country of Incorporation	Percentage of voting power	
		31st March, 2025	31st March, 2024
(i) K.V.K.Raju International Leadership Academy	India	42.85%	42.85%

Principles of Consolidation:

The Consolidated Financial Statements relate to Nagarjuna Fertilizers and Chemicals Limited and its subsidiary companies (together referred to herein as "the Group"), and have been prepared on the following basis:

- The Financial Statements of the holding company and its subsidiary companies have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra group balances and unrealised profits or losses on intra group transactions as per Indian Accounting Standard (Ind AS) 110 – Consolidated Financial Statements notified by the Companies (Accounts) Rules, 2014.
- In case of associates where the holding company directly or indirectly through its subsidiaries holds more than 20% of Equity, Investments in Associates are accounted under the equity method as per Indian Accounting Standard (Ind AS) 110 – Consolidated Financial Statements notified by the Companies (Accounts) Rules, 2016.
- The Financial Statements of the subsidiaries and the associates used in the consolidation are drawn up to the same reporting date as that of the holding company, i.e., March 31, 2025
- The excess of the cost to the holding company of its investment in the subsidiaries over the Company's share of equity is recognized in the Financial Statements as Goodwill and tested for impairment annually.
- The excess of the holding company's share of equity of

the subsidiaries on the acquisition date, over its cost of investment is treated as Capital Reserve.

- Non-controlling interest in the net assets of the consolidated subsidiaries is identified and presented in consolidated balance sheet separately from current liabilities and equity of the Group.

Non-controlling Minority interest in the net assets of consolidated subsidiaries consists of:

- The amount of equity attributable to non-controlling interest at the date on which investment in a subsidiary is made; and
 - The non-controlling interest's share of movements in the equity since the date the parent subsidiary relationship came into existence.
- Non-controlling interest in the net profit / (loss) for the year of consolidated subsidiaries is identified and adjusted against the profit after tax of the group.
 - In case of foreign subsidiaries being non integral foreign operations, revenue items are consolidated at monthly average of exchange rate prevailing during the year. All assets and liabilities are converted at the rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognized in "Foreign Currency Translation Reserve".
 - The consolidated Financial Statements are prepared to the extent possible using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the holding company's separate Financial Statements.

Voluntary Liquidation of subsidiary:

The Subsidiary went into voluntary liquidation vide resolution passed by its Members on 25th April 2022.

The Financial Statement of the subsidiary for the year ended March 31, 2025 were prepared on Liquidation Basis. Value of Assets and liabilities are stated at Liquidation Value and these statements have been consolidated.

The company went into Voluntary Liquidation vide resolution passed by the Members on 25th April, 2022, Shri. Kranthi Kumar Kedari, Insolvency Professional, had been appointed as the Liquidator.

After issuance of GO by Govt of Karnataka (KIADB) cancelling the allocation of land and after prolonged litigation (due to lack of cash flows to support operations and financial creditors), JESCO (a subsidiary of NFCL) with loans went into Voluntary Liquidation under IBC with effect from April 25, 2022. As per IND AS accounting standards shares of JESCO (part of non current assets) were accordingly fully provided for. The liquidator after completing all formalities of voluntary liquidation proceedings had filed the petition for dissolution of JESCO on 01.10.2023 with NCLT, Bangalore.

Subsequently, the company has been informed by JESCO and noted by the Board of Directors of NFCL on May 20, 2024, that the Liquidator of JESCO is of the opinion that the JESCO will

not be able to pay its debts in full from the proceeds of assets to be sold in the liquidation and accordingly, the liquidator has filed a Memo for withdrawal from Voluntary Liquidation Proceedings and the same is dismissed By NCLT Bangalore as withdrawn vide order dated 16/04/2024. The financials of the subsidiary for the Quarter / Year ended 31st March 2025, received from JESCO have been consolidated. Sale of non core assets (non current assets other than core assets) is part of the recovery process by secured lender for OTS.

2.1. Basis of preparation:

The Financial Statements of the group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 as amended, on accrual basis under the historical cost convention, except for Derivative financial instruments and certain financial instruments, which are measured at fair value.

The Financial Statements are presented in INR and all values are rounded to two decimals to the nearest lakhs, except when otherwise indicated.

The financial statements have been approved for issue by the Board of Directors of the holding company in its meeting held on 30th May, 2025

2.2. Use of estimates:

The preparation of Consolidated Financial Statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively. Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have a significant effect on the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- i. Measurement of defined benefit obligations - Note 25.1
- ii. Recognition of deferred tax asset/Liability- Note 17
- iii. Fair Value Measurement of financial Instruments - Note 35
- iv. Recognition of subsidy income - Note 20
- v. Provision for doubtful trade receivables - Note 7

2.3. Current versus non-current classification

An asset or liability is classified as current if it satisfies any of the following conditions:

- i. the asset/liability is expected to be realized/settled in the Group's normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is held primarily for the purpose of trading;
- iv. the asset/liability is expected to be realized/settled within twelve months after the reporting period;

- v. the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- vi. in the case of a liability, the Group's does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

For the purpose of current/non-current classification of assets and liabilities, the Group has decided its normal operating cycle as twelve months. This is based on the nature of services and the time between the acquisition of assets or inventories for processing and their realization in cash and cash equivalents.

2.4. Property, Plant and Equipment (PPE)

Property, plant and equipment is stated at acquisition cost, net of accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.

All repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred. Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as Capital work-in-progress.

Depreciation is provided on pro-rata basis under the straight-line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013 with the following exception:

- Continuous Process Plants' are depreciated for 37 years based on the technical evaluation of useful life done by the management.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

Upon first-time adoption of Ind AS, the Group has elected to measure all its property, plant and equipment at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2015.

2.5. Intangible assets

Separately purchased intangible assets are initially measured at cost. Intangible assets acquired in a business combination are recognised at fair value at the acquisition date. Subsequently, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives. Estimated useful lives by major class of finite-life intangible assets are as follows:

Trademarks and Services: 10 years

The amortisation period and the amortisation method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

Upon first-time adoption of Ind AS, the Group has elected to measure all its intangible assets at the previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2015.

2.6. Impairment of non-financial assets

Assessment for impairment is done at each Balance Sheet date for any indication that a non-financial asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit.

If any indication of impairment exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made. Asset/cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognizing the impairment loss as an expense in the Statement of Profit and Loss. Recoverable amount is the higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date for any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased, in which case, a reversal of an impairment loss for an asset is recognised in the Statement of Profit and Loss account.

2.7. Inventories

Inventories are valued at the lower of cost and net realisable value. Materials and other supplies held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Costs for different categories of inventories are as follows:

- Raw materials and Traded Products: Cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- Finished goods and work in progress: Cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Net realisable value in the case of Urea is –

- the Group Concession Price notified by the Government of India in respect of finished goods lying at the factory, and

- the net sale price in respect of finished goods lying in the warehouses outside the factory.

Raw materials, work-in-progress, stores, spares, packing material and loose tools are valued at weighted average cost, less provision for depletion in value, if any.

2.8. Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consists of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

2.9. Financial instruments

Financial assets and liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

A. Financial assets

(i) Initial recognition

On initial recognition, financial assets other than Trade Receivables are recognised at fair value. Transaction cost that are directly attributable to acquisition of financial assets that are not at fair value through profit and loss (FVTPL) are added to fair value on initial recognition.

(ii) Subsequent measurement:

Financial assets which are debt instruments are subsequently measured on the following basis, depending on their classification

- amortized cost
- fair value through profit and loss (FVTPL)
- fair value through other comprehensive income (FVOCI)

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

(iii) When financial assets are Equity Instruments:

All equity investments in the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income (OCI) subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument are recognised as other income in the Statement of Profit and Loss unless the Group has elected to measure such instrument at FVOCI.

Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

(iv) De-recognition:

The Group derecognizes a financial asset when the contractual right to the cash flows from the financial asset expires or it transfers the financial asset and at the transfer qualifies for de-recognition under IND AS 109.

(v) Trade Receivables and Loans:

Trade receivables that do not contain a significant financing component are measured at transaction price. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

(vi) Impairment:

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category.

For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall. The impairment losses and reversals are recognised in Statement of Profit and Loss.

B. Financial liabilities:

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

(i) Initial recognition and measurement:

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and financial liabilities at amortised cost as appropriate. All financial liabilities are recognised initially at fair value and, in the case of liabilities measured at amortised cost, net of directly attributable transaction costs.

(ii) Subsequent measurement:

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at fair value through profit or loss.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are de-

termined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

(iii) Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another financial liability on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

C. Derivative financial instruments

The Group holds derivative financial instruments such as foreign exchange forward and options contracts to mitigate risk of changes in exchange rates on foreign currency exposure.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting period. Any gains or losses arising from re-measurement are dealt in Statement of profit or loss.

This category has derivative financial assets or liabilities which are not designated as hedges. Although the company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS109, Financial Instruments, and hence categorized as financial assets or liability at fair value through profit or loss.

D. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.10. Fair value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the Financial Statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.11. Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are not recognised. They are disclosed only when an inflow of economic benefit is probable from such assets.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

2.12. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discount and the schemes offered of the company as part of the contract.

The specific recognition criteria described below must also be met before revenue is recognised.

Sale of Goods:

The company recognises revenue in accordance with Ind AS 1154 - Revenue from Contracts with Customers by applying the following five steps:

- * Identify the contract with a customer
- * Identify the performance obligations in the contract
- * Determine the transaction price;
- * Allocate the transaction price to the performance obligations in the contract; and
- * Recognise revenue when (or as) the performance obligations is satisfied

Revenue from the sale of goods is recognised when (or as) control of the goods is transferred to the customer, i.e. when the customer obtains the ability to direct the use of and obtain substantially all of the remaining benefits from the goods.

In case of goods which are shipped subject to installation and inspection, revenue is normally recognized when the buyer accepts delivery, and installation and inspection are complete.

Subsidy:

Subsidy on Group Concession Price under Group Concession Scheme (GCS) and Freight are recognized in accordance with the norms prescribed by the Government of India – Fertiliser Industry Co-ordination Committee, with adjustments for escalation / de-escalation in the prices of inputs and other adjustments as estimated by the management in accordance with known policy parameters in this regard.

Rendering of services:

Revenue from sale of services is recognised as per the terms of the contract with customers based on stage of completion when the outcome of the transactions involving rendering of services can be estimated reliably.

Interest income:

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable using effective interest method .

Dividends:

Revenue is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

2.13. Employee benefits

(i) Gratuity:

In accordance with the Payment of Gratuity Act, 1972 the Group provides gratuity as a defined benefit plan, to eligible Employees. Liability with regard to gratuity is determined by an independent actuary at every Balance Sheet date using the projected unit credit method.

The Group recognizes the net obligation of a defined benefit plan in the Balance Sheet as asset or liability. Gains or losses on re-measurements are recognized in Other Comprehensive Income (OCI). Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to Statement of Profit and Loss.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss.

(ii) Superannuation fund and provident fund:

Superannuation and Provident Fund are in the nature of defined contribution plans.

The Group makes monthly contribution to approved superannuation fund covered by a policy with LIC of India. The Group has no further obligation beyond monthly contribution. The obligations under the said policy are accounted for on accrual.

The Group makes monthly contribution to the Provident Fund scheme and recognizes it as an expense, in the year in which employee renders the related service. The Group's Contribution towards Provident Fund is administered and managed by an approved trust. The Group has no obligation, other than the contribution payable to the Fund.

(iii) Compensated absences:

Liability for compensated absence is treated as a long term liability and is covered by a policy with Life Insurance Corporation ('LIC'). The estimated liability at each Balance Sheet date is determined by an independent actuary using the projected unit credit method and is recognised in the accounts accordingly.

2.14. Taxes

(i) Current income tax:

Income tax expense is recognised in the statement of profit or loss except to the extent that it relates to items recognized directly in equity or Other Comprehensive Income (OCI), in which case the tax is also recognized in equity or Other Comprehensive Income (OCI).

The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax asset/liability is measured at the amount expected to be recovered from or paid to the taxation authorities.

(ii) Deferred tax:

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the Balance Sheet date.

Deferred tax assets are recognised to the extent it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent there is no longer probable that the related tax benefit will be realized. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.15. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

In the case of a loan or assistance provided by government or related institutions with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The Grant is initially recognised and measured at fair value and subsequently measured in accordance with the recognition and measurement principles of Ind AS 109, Financial Instruments (financial liabilities). The government grant is measured as the difference between the initial carrying value of the loan and the proceeds received and recognised as income on a systematic basis over the periods the related costs, for which it is intended to compensate, are expensed.

2.16. Leases

The Group, at the inception of a contract, assesses whether the contract is a lease or not. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a time in exchange for a consideration. This policy has been applied to contracts existing and entered into on or after 1 April 2019.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to

dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently amortised using the straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Group's incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense over the lease term.

2.17. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset in the period in which they are incurred, until such time the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. Interest earned on temporary investments out of specific borrowings made for qualifying assets is deducted from the borrowing costs eligible for capitalisation to those assets.

2.18. Research and development costs

Expenditure relating to capital items is treated as fixed assets and depreciated at applicable rates. Revenue expenditure during research period is charged to Statement of Profit and Loss in the year in which it is incurred.

2.19. Foreign currency transactions

The Group's Financial Statements are presented in Indian Rupees, which is its functional currency.

On initial recognition, transactions in foreign currencies entered into by the Group are recorded in the functional currency by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

Measurement of foreign currency items at reporting date:

Foreign currency denominated monetary assets and liabilities remaining unsettled at the end of the year are translated into functional currency at exchange rates prevailing at the Balance Sheet date. Exchange differences arising on translation of monetary items are recognised in Statement of Profit and Loss.

Non-monetary assets and liabilities denominated in foreign currency and measured at historical cost are translated using exchange rate prevalent on the date of transaction. Non-monetary assets and liabilities denominated in foreign currency and measured at fair value are translated using the exchange rates at the date when the fair value was determined.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or Statement of Profit and Loss are also recognised in OCI or Statement of Profit and Loss, respectively).

2.20. Earnings per share

Basic earnings per equity share is computed by dividing the net profit for the year attributable to the Equity Shareholders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the net profit for the year, adjusted for the effects of dilutive potential equity shares, attributable to the Equity Shareholders by the weighted average number of the equity shares and dilutive potential equity shares outstanding during the year except where the results are anti-dilutive.

2.21. Investments

Investments are classified as Non Current and Current. Non Current Investments are carried at cost less provision for other than temporary diminution, if any, in value of such investments. Current investments are carried at lower of cost and fair value.

2.22. Exceptional Items

Exceptional items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items are disclosed separately as exceptional items.

Defined Benefit Plans

The employees' gratuity fund and leave encashment (PL) schemes managed by Life Insurance Corporation of India are defined benefit plans. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The following tables summarise the components of net benefit expense recognised in the statement of profit and loss and the funded status and amounts recognised in the balance sheet for the respective plans:

26.1 During the year, the company is in default of principal and interest on the borrowings from various lenders on account of financial stress. The lenders have classified the company's loan accounts as NPA in the financial year 2018-19 and continuing the same status in the current year too. Pending receipt of interest demands and confirmation of balances of loans from various lenders, the Company has been accounting the interest / penal interest as per the rates of interest mentioned in the sanction letters, Corrective Action Plan (CAP) and other loan documents. Adjustments, if any, for the interest and penal interest accounted, will be made on getting the information from the lenders.

- (c) During the year, the Company has not recognized any deferred tax assets or liabilities in the financial statements. This decision is in line with Ind AS 12 - Income Taxes, which requires the recognition of deferred tax only to the extent that it is probable that sufficient future taxable profits will be available against which deductible temporary differences and carry-forward losses can be utilized. The primary reasons for the non-recognition of deferred tax are as follows:

1. Sale of Assets:

Assets Care Reconstruction Enterprise (ACRE), Secured Creditor, invoked SARFAESI Act 2002, took symbolic possession of all assets on 12th Oct 2023, entered into an OTS agreement and had recovered debt from sale of core assets (Urea and MI facilities), non-core assets (all assets other than Urea and MI assets) amounting to Rs.1685 Crores and Rs. 200 crores respectively totaling to Rs. 1885 crores plus cutback pending and due till June 30, 2024, towards full and final settlement of debt outstanding of Rs. 3858 Crores claimed by ACRE as of 10th December 2023.

The Board of Directors on May 31, 2024, took note of the issue of Sale Certificate by ACRE and handover of Physical Possession of Core Secured Assets of NFCL to AM Green Ammonia (India) Private Limited, the buyer.

Consequently, ACRE has issued a No Due Certificate dated 11th July 2024, confirming that NFCL stands unconditionally and irrevocably released and discharged of any liabilities, dues, demands or claims in respect of the outstanding debt, other amounts due and payable to ACRE, including release of all security created in favour of ACRE, personal guarantees and pledge of shares of NFCL held by promoter (Amlika Mercantile Private Limited). NFCL, as on 11th July, 2024, does not have any term loans and working capital debt outstanding with the Banks.

There were no PPE available for operations in view of recovery from sale of Assets by the Lenders. Ammonia/Urea plants operated up to 4th June 2024, i.e., one plant till 31st May 2024 and the other plant till 04th June 2024, Micro Irrigation Plants operated till 31st May 2024.

Post the recovery by ACRE there are no physical assets (which includes all Property, Plant, and Equipment (PPE)) remaining with the company.

As there are no remaining physical assets including PPE assets, there is no difference between the Income Tax Block and the Company's Act Block, which would otherwise give rise to temporary differences that need to be recognized for deferred tax purposes.

2. Reduction in Operations:

Following the recoveries by ACRE, the Company does not have any revenue generating activities and operations have significantly reduced. The company is currently focusing mainly on recovery of its remaining claims and dues and settlements of operating debt. Given the current status of operations and levels of net current liabilities, there is no expectation of continuing operations or generating taxable profits in the near future.

3. Set-off of Carry-forward Losses:

The Company has carry-forward losses under the Income Tax Act, 1961, which, in the view of the management, will likely be set off against future taxable profits, if any. However, in light of the reduced operations and the absence of foreseeable taxable profits, the Company does not anticipate being able to utilize the deferred tax assets.

As a result, the Company has not recognized any deferred tax assets or liabilities for the year.

(d) The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities as they relate to income taxes levied by the same tax authority.

29. Material Uncertainty on the Company's ability to continue as a going concern and appropriateness of use of going concern basis of accounting in preparation of financial statements.

i). Consequent to the settlement of Debt vide receipt of sale proceeds from Core and Non- Core assets by ACRE, there are no other assets including property plant and equipment left with the Company for operations. "No Dues and Security release Certificate" from ACRE was received on 11th July 2024, thereby affecting the Going Concern of the Company and accordingly drawn the Financial statements for the year ended on March 31, 2025.

ii) Without considering the energy and other claims from the Government, the current liabilities exceed the current assets by Rs. 86,095.55 Lakhs.

Accordingly, Financial Statements for the FY 2024-25 has been prepared on not a going concern basis

30. (i) Government of India announced New Urea Policy (NUP)-2015 and Gas Pooling Policy for Fertilizer (Urea) Sector which are effective from 1st June 2015 to 31st March 2019. Government of India extended the NUP -2015 from 1st April 2019 until further orders. Income from Urea Operations has been recognised in accordance with the said policies. Income towards freight subsidy, Reimbursement claims towards additional fixed cost, Input escalation / de-escalation, have been recognized for the year ended on March 31, 2025 in terms of the said policies.

(ii) De-escalation of Urea subsidy and De-escalation of Gas Costs used as Raw material and generation of Power for FY 2022-23.

The Subsidy income is recognised based on the notified Gas Pool prices for the time being in force and upon final notification of the prices the escalation / de-escalations are accounted for in the year in which these notifications are issued. During the 3rd quarter the final Gas Pool price for the year 2022-23 has been notified by the DOF (Annual cumulative Gas Pool price has come down) in line with which GAIL has issued Credit note and NFCL has recognized reduction in Gas Costs by Rs. 17,555.01 Lakhs and correspondingly NFCL has reduced its Urea Subsidy claim by Rs. 16,879.16 Lakhs for FY 2022-23. Accordingly, the reduction in cost of raw material / power and fuel and consequent de-escalation of the subsidy revenues, respectively, belonging to FY 2022-23 have been accounted in line with the said notification and continued accounting policy. Further adjustments required, if any, will be considered on notification of final prices. As there is no production from 4th June 2024 there is no revenue from Operations to be recognised from 2nd quarter.

(iii) The Government extended the preset energy norms which were valid till 31st March 2023. Accordingly, Subsidy income is recognized based on Target Energy Norms as per NUP-2015 policy for the Quarter ended June 2024 and there is no production from June 2024 as the Plants were sold.

31. Impairment of Property Plant & Equipment

No impairment test for PPE's carried out.

32. Contingent Liabilities and Commitments (to the extent not provided for)

Rs. in Lakhs

Particulars	March 31, 2025	March 31, 2024
A. Contingent Liabilities:		
i) Claims against the Company not acknowledged as debt:		
a) Tax matters in appeal:

iii) Other money for which the Company is contingently liable:		
- Compensation for 33.35 acres (Previous year 33.35 acres) of land in Company's possession - amount not ascertainable	-	-
- Claim for using the "Nagarjuna Brand/ Trade mark" - amount not ascertainable (Refer note 32.2)	-	-
- Claims from various creditors who have filed petitions before court/ tribunals - amount not quantified (Refer No.32.3)	-	-
	81,596.07	63,874.19
B. Commitments		
Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advance)	-	1,068.90

GAIL has recovered interest in the past and also raising claims for interest on the amounts due which is being disputed by the company. The company is not accounting for further interest from 1st July 2024 onwards.

32.1 (a) There are various claims against the company which are in dispute in various forums, courts, appeals, including arbitration awards.

(b) In relation to some of the contracts for purchase of fertilisers, an international Arbitration Award has been passed against the Company in September 2016 for USD 14,398,188 and GBP 690,630 and interest as applicable apart from costs based on a claim filed by one of the Suppliers of Fertilizers to the Company.

The Company is of the view that the Award has been obtained based on documents tampered with and mis-representations of facts by said supplier. The Company is contesting the enforcement of the Award in the Courts in India and has also filed a Criminal Complaint before the Metropolitan Magistrate of Hyderabad against the supplier and its officials. Judgement came in favour of the Company, aggrieved by the Judgement, supplier made an appeal to the Supreme Court of India. Matter yet to be heard.

(c) The Company entered into two Contracts dated December 15, 2012 on Early Works, Offshore and Onshore towards certain engineering drawings to be utilised towards its plant for third ammonia and urea project on conditions that balance amounts payable only upon (a) the announcement of a fertilizer policy and (b) that the fertilizer policy being found favorable for the Project of the Company. The Company could not proceed further as the policy was not conducive for the project.

The service provider raised invoices for the balance amounts claiming that the work carried out was per contract. As the amounts were not paid the service provider invoked arbitration. The arbitral Tribunal passed an award on October 23, 2017 for USD 877,500, GBP 52,314, EUR 455,000 and INR 221.39 Lakhs and interest as applicable apart from costs in favour of the claimant. NFCL challenged the Awards by filing two petitions separately for each case under section 34 of Arbitration & Conciliation Act as the tribunal ignored vital evidence such as Govt communication dt 9th May 2013 where in the industries we're asked not to proceed further without necessary approvals from Govt, amongst other grounds. Matter yet to be listed for hearing.

Based on the current legal progress, the management has provided for 25% of the claim made on the Offshore contract and deposited 15% of the onshore contract value with the court. The Company continues to proceed legally and hence the balance claims have been disclosed as contingent liabilities.

32.2 Various other Cases / Petitions filed against the company in NCLT / Courts / Other Tribunals: Few other creditors have filed petitions against the company in various Courts / Tribunals for recovery of dues / claims for compensation for their services / supplies and all these matters are at various stages in the respective courts. The legal counsels opined that these cases / petitions filed against the company are not tenable and are of the view that these cases may not have any impact on the financials of the company.

Basis the legal opinion the management is of the view that the other pending litigations may not have any adverse impact on the financial position of the company as at the year end. If and when this assumption changes and they do become material and adversely it will be appropriately reported as per the extant guidelines.

32.3 Amlika Mercantile Private Limited (AMPL), Core Promoter of the Company had preferred an appeal before Hon'ble National Company Law Appellate Tribunal (NCLAT), Chennai, against the Order dated 27.08.2021, passed by the 'National Company Law Tribunal', Hyderabad Bench, admitting the Nagarjuna Fertilizers and Chemicals Limited (NFCL) into Corporate Insolvency Resolution Process (CIRP) under Insolvency and Bankruptcy Code, 2016.

Basis the appeal of AMPL, Hon'ble NCLAT, Chennai, vide order dated October 05, 2023, has allowed the appeal by setting aside the impugned order dated August 27, 2021, passed by Hon'ble NCLT, Hyderabad Bench. Thereby, the Company exited CIRP under IBC, 2016 effective October 05, 2023.

AMPL has claims the legal expenses for the NCLAT appeal filed on behalf of the Company and the company is liable to reimburse the legal expenses to AMPL.

32.4 Claim by GAIL and against GAIL

i) Claim by GAIL

GAIL has filed a petition under section 9 of Arbitration and Conciliation Act, 1996, in Hon'ble High Court of Delhi, seeking relief for their outstanding dues. The Company is contesting the case disputing the total claim of GAIL stating that GAIL has stopped supplies in 2018 as the company was unable to comply with the gas supply agreement terms (as regards security and payment terms) and GAIL resumed supplies after intervention of DoF, MoCF, GoI assuring GAIL on payments and payment security via Office Memorandum (OM). The Government did not agree to pay GAIL within a specified period nor did it agree to reimburse GAIL of any interest as can be clearly seen in the Office Memorandum (OM) of DoF, basis of which resumed the gas supply. GAIL was fully aware of the impossibility of the company complying with the security and payment terms in gas supply and has communicated in writing in various legal forums and with DoF that it started supplies only after security and assurances of payment from DoF. Despite this GAIL has adjusted payments/recovered interest since 2018 and also raising claims for interest post the sale of assets on the amounts due. The company is disputing interest being claimed by GAIL with GAIL, with DoF and in Legal Forums.

ii) Claims Against GAIL

The company had lost the GAIL arbitration case in 2023. The company filed an application under section 34 of Arbitration and Conciliation Act 1996 which is pending adjudication in Delhi High Court since 2023. All the assets of NFCL have been sold basis the secured creditor invoking SARFAESI. The company's accounts have been drawn up accordingly as a non-going concern. Given the financial situation NFCL assigned its rights in favour of AMPL to represent it in all legal forums/proceedings to pursue claims from GAIL including Arbitration claim in its name as an assignee along with agency coupled with interest under the provisions of Indian Contract Act, 1872. Should GAIL satisfy the award in the future, from the net proceeds, NFCL shall use the award as it deems fit after clearing its liabilities.

32.5 The Company has been using the Nagarjuna Brand I Trademarks for its urea and other products under a license agreement Dt 29/01/1998 with the grantor, a related party. The company, during the period ended on 31.12.2021, received a claim from the grantor asserting its right to royalty for the period from 29/01/1998. The company agreed without impairment and prejudice to the rights of AMPL in any manner whatsoever to settle the claims in a manner such that the dues are secured and paid/deducted on a priority basis from the receipts if any from claims against GAIL if and when GAIL satisfies the award in relation to pipeline accident The Dolaramud.; trademark/mascot being used by the Group and by NFCL in urea packaging. After the government letter dated August 18, 2023, on One Nation One Fertilizers by introducing Single Brand for fertilizers and Logo under fertilizer subsidy scheme, the company has discontinued use of trademark and did not renew the trademark. The group agreed to continue the trademark. Based on the agreed terms with NACL the company has written to NACL to stop utilising the Nagarjuna name, group logo or trademarks vide letter dated 28th May 2025 after hearing news that there is a change in company's ownership and management.

37. Financial risk management objectives and policies

Financial Risk Management Framework

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans and advances, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Company is exposed primarily to Credit Risk, Liquidity Risk and Market risk (fluctuations in foreign currency exchange rates and interest rate), which may adversely impact the fair value of its financial instruments. The Company's senior management oversees the management of these risks. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company based on the policies agreed by the Company's senior management. The same are summarised below:

A. Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company result in material concentration of credit risk except trade receivables where more than 50% is due from Government of India and various State Governments. The same are realisable in due course.

To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as :

- (i) Actual or expected significant adverse changes in business,
- (ii) Actual or expected significant changes in the operating results of the counterparty,
- (iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- (iv) Significant increases in credit risk on other financial instruments of the same counterparty,
- (v) Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the company. The company categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than 2 years past due. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

Trade receivables:

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date on an individual basis for major clients based on ageing.

The ageing analysis of trade receivables as of the reporting date is as follows:

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved authorities. Credit limits of all authorities are reviewed by the Management on regular basis.

B. Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The Company was unable to meet the financial obligations during the current year on account of continued losses. The Company is in discussion with the lenders for Resolution Plan. Refer Note 34.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

C. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk for the entity comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include loans and borrowings and derivative financial instruments.

The sensitivity analyses in the following sections relate to the position as at March 31, 2024 and March 31, 2023

The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant in place at March 31, 2024.

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets.

The following assumptions have been made in calculating the sensitivity analysis:

'- The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2024 and March 31, 2023.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The company's interest rate exposure is mainly related to variable interest rates debt obligations. The company uses a mix of interest rate sensitive loan facilities from the lenders to manage the liquidity and fund requirement for its day to day operations like working capital, short term loans and suppliers / buyers credit etc.,

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings with floating rate of interest affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Increase/decrease in basis points	Effect on profit before tax
	INR Lacs	
March 31, 2025		
INR	+50	-
INR	-50	-
March 31, 2024		
INR	+50	524.34
INR	-50	(524.34)

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency) and borrowings in foreign currency.

Foreign exchange forward contracts	-	-	-	-

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD and Euro exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives. The Company's exposure to foreign currency changes for all other currencies is not material.

38. Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.
