CORPORATE SUSTAINABILITY

Our Purpose:

“SERVING SOCIETY THROUGH INDUSTRY”.

Our Culture:

Business in harmony with nature and community will benefit our stakeholders (including employees, alliances, investors, customers, suppliers)

Scope of Sustainability

Sustainability Practice covers:

- a) Products
- b) Production Facilities
- c) Offices
- d) Supply Chain
- e) Research and Development

Our principles:

At Nagarjuna, the environmental and community responsibility extends beyond the narrow confines of compliance with statutorily-stipulated standards and aims to maintain long term harmony.

The following are the guiding principles:

- To promote awareness on environment, health, safety & corporate social responsibility among all stakeholders i.e., including employees, alliances, investors, customers, suppliers.
- Ensure implementation of best practices in the areas of environment, health, safety and corporate social responsibility across the value chain.
- Audit and report on regular basis various measures adopted towards sustainability.

We remain committed with dedication for the Conservation of Nature and Community.
