DESCRIPTIVE REPORT ON STATUS OF COMPLIANCE TO THE CONDITIONS OF ENVIRONMENTAL CLEARANCE AND ENVIRONMENTAL MANAGEMENT

Subject: Compliance report of Environmental Clearance for Plant 3

Reference: J-11011/603/2010-IA, II(I), dated 18.12.2012	
Duration – October 2015 to March 2016	

Sl. No.	Condition	Present Status
А	SPECIFIC CONDITIONS:	
i.	All the conditions stipulated in	Complied
	environmental clearance J-	
	11011/17/94-IA (II) dated 14 th	
	September, 1994, J-11011/272/IA (II)	
	dated 15 th February, 2008, J-	
	11011/265/2008-IA (II) dated 22 nd	
	August, 2008, accorded for existing	
	projects shall be implemented.	
ii.	The gaseous emissions $(SO_2, NO_x,$	This directive shall be complied with,
	NH ₃ , Urea dust) and particulate	once the plant is constructed and is
	matter from various process units	operational.
	shall conform to the norms prescribed	*
	by the concerned authorities from	
	time to time. At no time, the emission	
	levels shall go beyond the prescribed	
	standards. In the event of failure of	
	any pollution control system adopted	
	by the unit, the respective unit shall	
	not be restarted until the control	
	measures are rectified to achieve the	
	desired efficiency. Stack emissions	
	shall be monitored regularly.	
iii.	Adequate stack height shall be	This directive shall be complied with,
	provided to Ammonia plant reformer,	once the plant is constructed and is
	Heat recovery steam generator	operational.
	(HRSG), NG/RLNG fired gas turbine	
	and Prilling Tower. Low NOx burners	
	shall be provided to control NOx	
	emissions.	
iv.	1 / 1	This directive shall be complied with,
	shall not exceed 50 mg/Nm3.	once the plant is constructed and is
	Monitoring of Prilling Tower shall be	operational.
	carried out as per CPCB guidelines.	
V.	Ambient air quality data shall be	This directive shall be complied with,
	collected as per NAAQES standards	once the plant is constructed and is
	notified by the Ministry vide G.S.R.	operational.
	No. 826(E) dated 16 th September,	
	2009. The levels of PM_{10} (Urea Dust),	
	SO_2 , NO_x , Ammonia, Ozone and HC	
	shall be monitored in the ambient air	
	and displayed at a convenient location	

r		
	near the main gate of the company and at important public places. The company shall upload the results of monitored data on its website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the A P Pollution Control Board (APPCB).	
vi.	In plant control measures for checking fugitive emissions from all the vulnerable sources shall be provided. Fugitive emissions shall be controlled by providing closed storage, closed handling & conveyance of chemicals/materials, multi cyclone separator and water sprinkling. Fugitive emissions in the work zone environment, product, raw material storage area etc. shall be regularly monitored. The emissions should confirm to the limits stipulated by APPCB.	This directive shall be complied with, once the plant is constructed and is operational.
vii.	The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosures shall be provided to the DG sets to mitigate the noise pollution.	This directive shall be complied with, once the plant is constructed and is operational.
viii.	Additional water requirement from Godavari River for the expansion plant shall not exceed 21170 m ³ /day and prior permission shall be obtained from concerned Authority and a copy submitted to the Ministry's Regional Office at Bangalore. No ground water shall be used.	This directive shall be complied with, once the plant is constructed and is operational.
ix.	An action plan shall be submitted to the Ministry and its Regional Office at Bangalore regarding measures taken for water conservation and maximum .recycling/reuse of treated wastewater in the existing unit and proposed for implementation during the expansion.	This directive shall be complied with, once the plant is constructed and is operational.
X.	As proposed industrial effluent should not exceed 2620 m^3 /day and treated in the ETP. As proposed, Urea plant process condensate shall be treated in	This directive shall be complied with, once the plant is constructed and is operational.

	a deep hydrolyser followed by	
	stripping. Ammonia plant process	
	condensate (APC) shall be stripped	
	with steam followed by activated	
	carbon and demineralization. Treated	
	condensate shall be recycled/used in	
	the process. Utilities wastewater shall	
	be treated in the ETP and treated	
	effluent shall be recycled/used.	
	Treated effluent shall also be	
	monitored for the parameters namely	
	Ammonical nitrogen, Nitrate,	
	Fluoride, pH etc. The treated effluent	
	which can not be reutilized shall be	
	disposed off through marine outfall	
	(MOF) system. Sewage shall be	
	treated in the STP and treated water	
	shall be recycled/used within factory	
	premises to achieve zero discharge	
	except rainy season.	
X1.	All the effluents after treatment shall	This directive shall be complied with,
	be routed to a properly lined guard	once the plant is constructed and is
	pond for equalization and final	operational.
	control. In the guard pond, automatic	
	monitoring system for flow, and	
	relevant pollutants (i.e. pH	
	Ammonical nitrogen, nitrate nitrogen,	
	etc) shall be provided with high level	
	alarm system.	
xii.	Regular monitoring of ground water	This directive shall be complied with,
	by installing piezometric wells around	once the plant is constructed and is
	the guard pond and sludge disposal	operational.
		operational.
	sites shall be periodically monitored	
	and reports shall be submitted to the	
	concerned Ministry's Regional	
	Office, CPCB and SPCB.	
xiii.	The company shall construct the	This directive shall be complied with,
	garland drain all around the project	once the plant is constructed and is
	site to prevent runoff of any	operational.
	chemicals containing waste into the	*
	nearby water bodies. Effluent shall be	
	properly treated and treated	
	wastewater shall conform to CPCB	
<u> </u>	standards.	
xiv.	The company shall obtain	This directive shall be complied with,
	Authorization for collection, storage	once the plant is constructed and is
	and disposal of hazardous waste	operational.
	under the Hazardous Waste	
	(Management, Handling, and Trans-	
	Boundary Movement) Rules, 2008	
L	interest interest, 2000	

	1 1 1 1	
	and amended as on date for	
	management of Hazardous wastes.	
	Measures shall be taken for fight	
	fighting facilities in case of	
	emergency.	
XV.	Spent catalyst and used oil shall be	This directive shall be complied with,
	sold to authorized recyclers/re-	once the plant is constructed and is
	processors only.	operational.
xvi.	The company shall strictly comply	<i>This directive shall be complied with,</i>
	with the rules and guidelines under	once the plant is constructed and is
	Manufacture, Storage and import of	operational.
	Hazardous Chemicals Rules	
	(MSIHC), 1989 as amended time to	
	time. All transportation of Hazardous	
	chemicals shall be as per the Motor	
	-	
·	Vehicle Act (MVA) 1989.	
xvii.	All the commitments made during the	This directive shall be complied with,
	Public Hearing/Public Consultation	once the plant is constructed and is
	meeting held on 17 th August 2011	operational.
	shall be satisfactorily implemented	
	and adequate budget provision shall	
	be made accordingly.	
xviii.	Remote operated valve placed on NH ₃	This directive shall be complied with,
	line to avoid leakage/equipment	once the plant is constructed and is
	check shall be performed to ensure	operational.
	that remote operated valve (ROV) is	
	all time functional.	
xix.	The company shall implement all the	This directive shall be complied with,
	recommendations made in the Charter	once the plant is constructed and is
	on Corporate Responsibility for	operational.
	Environmental Protection (CREP) for	
	Fertilizer Industries.	
XX.		This directive shall be complied with,
	e	once the plant is constructed and is
	during manufacturing process in	operational.
	material handling. Fire fighting	operational.
	system shall be as per the OISD 117	
	•	
VVI	norms. Occupational health surveillance of	This directive shall be complied with
XX1.		This directive shall be complied with,
	the workers shall be done on a regular	once the plant is constructed and is
	basis and records maintained as per	operational.
	the Factories Act.	
xxii.	Green belt shall be developed in 33 %	This directive shall be complied with,
	of the plant area. Selection of the	once the plant is constructed and is
	species shall be as per the CPCB	operational.
	guidelines.	
xxiii.	Provision shall be made for the	This directive shall be complied with,
xxiii.	Provision shall be made for the housing for the construction labour	This directive shall be complied with, once the plant is constructed and is
xxiii.		-

	infrastructure and facilities such as	
	fuel for cooking, mobile sewage,	
	mobile sewage treatment plants, safe	
	drinking water, medical health care,	
	crèche etc. The housing may be in the	
	form of temporary structure to be	
	removed after the completion of the	
	project. All the construction wastes	
	shall be managed so that there is no	
	impact on the surrounding	
	environment.	
B.	GENERAL CONDITIONS:	This directive shall be complied with,
	The project authorities shall strictly	-
1.		once the plant is constructed and is
	adhere to the stipulations made by the	operational.
	Andhra Pradesh Pollution Control	
	Board (APPCB).	
ii.	No further expansion or modifications	This directive shall be complied with,
	in the plant shall be carried out	once the plant is constructed and is
	without prior approval of the Ministry	operational.
	of Environment and Forests. In case	op or antonian
	of deviations or alterations in the	
	project proposal from those submitted	
	to this Ministry for clearance, a fresh	
	reference shall be made to the	
	Ministry to assess the adequacy of	
	conditions imposed and to add	
	additional environmental protection	
	measures required, if any.	
iii.	The locations of Ambient air quality	This directive shall be complied with,
	monitoring stations shall be decided	once the plant is constructed and is
		operational.
	Pollution Control Board (SPCB) and	
	it shall be ensured that atleast one	
	station is installed in the upwind and	
	downwind direction as well as where	
	maximum ground level	
	concentrations are anticipated.	
iv.	The overall noise levels in and around	This directive shall be complied with,
17.	the plant area shall be kept well	once the plant is constructed and is
		operational.
	within the standards by providing	operational.
	noise control measures including	
	acoustic hoods, silencers, enclosures	
	etc. on all sources of noise generation.	
	The ambient noise levels shall	
	conform to the standards prescribed	
	under Environment (Protection) Act,	
	Rules, 1989 viz. DBA (day time) and	
	70 dBA (night time)	
*7		This directive shall be complied with
V.	The company shall harvest rainwater	This directive shall be complied with,
	from the roof tops of the buildings	once the plant is constructed and is

T	1. (
	and storm water drains to recharge the	operational.
	ground water and use the same water	
	for the process activities of the project	
	to conserve fresh water.	
vi.	Training shall be imparted to all	This directive shall be complied with,
	employees on safety and health	once the plant is constructed and is
	aspects of chemical handling. Pre-	operational.
	employment and routine periodical	
	medical examinations for all	
	employees shall be undertaken on	
	regular basis. Training to all	
	employees on handling of chemicals	
	shall be imparted.	
vii.	*	This divective shall be complied with
VII.	6	This directive shall be complied with,
	Equipments (PPEs) by all employees /	once the plant is constructed and is
	workers shall be ensured.	operational.
viii.	The company shall also comply with	This directive shall be complied with,
	all the environmental protection	once the plant is constructed and is
	measures and safeguards proposed in	operational.
	the documents submitted to the	
	Ministry. All the recommendations	
	made in the EIA/EMP in respect of	
	environmental management, risk	
	mitigating measures and public	
	hearing relating to the project shall be	
	implemented.	
ix.	The company shall undertake all	This directive shall be complied with,
1A.	relevant measures for improving the	•
		once the plant is constructed and is
	socio-economic conditions of the	operational.
	surrounding area. CSR activities shall	
	be undertaken by involving local	
	villages and administration.	
Х.	The company shall undertake eco-	•
	developmental measures including	once the plant is constructed and is
	community welfare measures in the	operational.
	project area for the overall	
	improvement of the environment.	
xi.	1	This directive shall be complied with
xi.	A separate Environmental	This directive shall be complied with, once the plant is constructed and is
xi.	A separate Environmental Management Cell equipped with full-	once the plant is constructed and is
xi.	A separate Environmental Management Cell equipped with full- fledged laboratory facilities shall be	•
xi.	A separate Environmental Management Cell equipped with full- fledged laboratory facilities shall be set up to carry out the Environmental	once the plant is constructed and is
xi.	A separate Environmental Management Cell equipped with full- fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring	once the plant is constructed and is
	A separate Environmental Management Cell equipped with full- fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions.	once the plant is constructed and is operational.
xi. xii.	A separate Environmental Management Cell equipped with full- fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions. As proposed, company shall earmark	once the plant is constructed and is operational. This directive shall be complied with,
	AseparateEnvironmentalManagement Cell equipped with full- fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions.As proposed, company shall earmark sufficient funds towards capital cost	once the plant is constructed and is operational. This directive shall be complied with, once the plant is constructed and is
	AseparateEnvironmentalManagement Cell equipped with full- fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions.As proposed, company shall earmark sufficient funds towards capital cost and recurring cost respectively to	once the plant is constructed and is operational. This directive shall be complied with,
	AseparateEnvironmentalManagement Cell equipped with full- fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions.As proposed, company shall earmark sufficient funds towards capital cost	once the plant is constructed and is operational. This directive shall be complied with, once the plant is constructed and is
	AseparateEnvironmentalManagement Cell equipped with full- fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions.As proposed, company shall earmark sufficient funds towards capital cost and recurring cost respectively to	once the plant is constructed and is operational. This directive shall be complied with, once the plant is constructed and is
	AseparateEnvironmentalManagement Cell equipped with full- fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions.As proposed, company shall earmark sufficient funds towards capital cost and recurring cost respectively to implement the conditions stipulated	once the plant is constructed and is operational. This directive shall be complied with, once the plant is constructed and is

	implementation schedule for all the conditions stipulated herein. The	
	funds so earmarked for environment	
	management / pollution control	
	measures shall not be diverted for any	
	other purpose.	
xiii.	A copy of the clearance letter shall be	This directive shall be complied with,
	sent by the project proponent to	once the plant is constructed and is
	concerned Panchayat, Zila	operational.
	parishad/Municipal Corporation,	
	Urban local Body and the local NGO,	
	if any, from who	
	suggestions/representations, if any,	
	were received while proposing the	
	proposal.	
xiv.	The project proponent shall also	This directive shall be complied with,
	submit six monthly compliance	once the plant is constructed and is
	reports on the status of compliance of	operational.
	the stipulated Environmental	
	Clearance conditions including results	
	of monitored data (both in hard copies	
	as well as by email) to the respective	
	Regional office of MoEF, the	
	respective Zonal Office of CPCB and	
	the AP Pollution Control Board. A	
	copy of the Environmental Clearance	
	and six monthly compliance report	
	shall be posted on the website of the	
	company.	
XV.	The environmental statement for each	This directive shall be complied with,
	financial year ending 31 st March in	once the plant is constructed and is
	Form-V as is mandated shall be	operational.
	submitted to the concerned State	
	Pollution Control Board as prescribed	
	under the Environment (Protection)	
	Rules, 1986, as amended subsequently, shall also be put on the	
	website of the company along with the	
	status of compliance of environmental	
	clearance conditions and shall also be	
	sent to the respective Regional	
	Offices of MoEF by e-mail.	
xvi	The project proponent shall inform	Complied.
	the public that the project has been	comptieu.
	accorded environmental clearance by	
	the Ministry and copies of the	
	clearance letter are available with the	
	SPCB/committee and may also be	
	seen at Website of the Ministry at	
	<u>http://envfor.nic.in</u> . This shall be	

	advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular	
	language of the locality concerned and a copy of the same shall be forwarded to the concerned Regional Office of the Ministry.	
xvii.	The project authorities shall inform the Regional Office as well as the Ministry, the data of financial closure and final approval of the project by the concerned authorities and the date of start of the project.	This directive shall be complied with, once the plant is constructed and is operational.
